Book Descriptions:

Dominator Safes Manual

Suitable questions would be There is no single design that provides a solution for every different application. Suitable questions would be While infloor safes do offer complete concealment, a major feature that most other safes do not, there are also many features that you cannot get in an infloor safe. There is no single design that provides a solution for every different application. Suitable questions would be These ratings enable you to easily compare different safes and what level of security they will provide. While there isn't any official body that applies certified cash ratings to safes, the manufacturers do make reasonable assessments based on industry comparisons to try and apply an accurate figure. There is no single design that provides a solution for every different application. Suitable questions would be If you need any further assistance, feel free to email us or contact your local Dominator Safes dealer. There is no single design that provides a solution for every different application. Suitable questions would be This is because it does not take much time to correctly install most safes, but it will eliminate the possibility of easy removal of the safe in the event of an attack. We always advise that a safe should be installed, whether ou have timber, concrete, brick or any other surface in the location. There is no single design that provides a solution for every different application. Suitable questions would be Most rating are described as a combination of temperature and time to give an accurate and easy to understand indication as to the level of protection provided. With the testing furnace heated up to over 1300F, the internal compartments remained below 350F for 105 minutes. There is no single design that provides a solution for every different application. Suitable questions would be. Please upgrade your browser to improve your experience. Dominator Safes User Guide Great value and always prompt. Used them for many years.<http://www.peyotecafe.it/fckeditorpics/808-titrando-manual.xml>

Will definitely recommend KGB Security to friends and coworkers. Thank you Kel I highly recommend them. I have a jewellery Business and recently i had issues with my safe and this guys helped me on the phone. Kel went above and beyond all expectations. I never hesitate referring friends and colleagues to KGB. Kel went above and beyond to help me with my vault door. Great Customer service, prices and friendly staff who go the extra mile to get the job done. I was looked after by Wayne who is an asset to the Company. Thank you very much. The technician that took my job was extremely professional. Would definitely recommend them and would use them in the future. I dealt with Wayne, who provided me with all the information I needed to purchase a new safe. The buying process was simple and easy. Highly recommended. Got a lot of help with my E30 BMW. They have spare keys for E30s and anything else. Very friendly and solution seekers! Thank you Wayne and the team. I would definitely recommend KGB Security to others. Took my call at 6am when I had locked myself out of the house. Gabe was a great technician, with prompt and efficient service. Thank you so much. They provide excellent support and advice which is really appreciated as well as well priced solutions. He helped me resolve my issue within a few hours which will allow me to sleep tonight. Thanks Kel and KGB highly recommended! Very efficient, honest and helpful. They went above and beyond, So grateful to have my home feeling secure. Thanks guys! They now have the job to move it,would and will recommend to anyone with safe or security needs tip top. Kel and his team are very helpful, I would recommend them if you like getting the job done properly. He went out of his way to help us and give great advice. Thank you so much! My son is in USA at the

moment so helping me was great, thank you for your excellent service. <http://www.madersport.cz/userfiles/8080-microcomputer-systems-user-manual.xml>

After our house was recently broken in we contacted KGB after the insurer appointed locksmith failed to attend to secure the house. On calling KGB they made arrangements and responded the next morning arriving on time. Gabriel carried out the work quickly and ensured everything was secured by replacing all the locks. Everything was left clean and tidy. However there was a minor issue with one of the locks sticking. After a quick email to KGB they made an appointment for next day to replace the lock. Gabriel arrived on time quickly assessed the problem and fixed it. Thank you Sharon for organising the work so quickly. Highly recommended and trusted They are super helpful and have great customer service. I recommend them highly. I would highly recommend this business for all your locksmith and security needs! Kel, Alison, Brock, they were all really patiently helpful and calmed me down on the phone I was literally tears up every 2 words and Wayne was just a caring and the nicest guy who fixed my key completely, god bless him and his beautiful soul. We're lucky to have these kind of people in life, make me trust the customer service and human in general again. Thank you guys, all the best Today I had a bit of a curly problem and they solved it cheap and fast and sent me on my way with such a simple solution. Thanks guys, I'd recommend you anytime! Mark. This is the first passionate company and staff team that I have dealt with in a very, very long time. Throughout my whole purchase, installation and after sales service process, I have been extremely impressed. They assisted me patiently and thoroughly with selecting the correct product for my needs, accommodated me with the installation which was of the highest quality workmanship and the after sales assistance was only the best. You can see the passion and pride of this company from just reading through their impressive and informative web site. I highly recommend this company!

Jamie was wonderful at explaining everything and I would recommend him to anyone. The sort of person you feel comfortable to have in your home. Thanks again Jamie The companies I had rung days before I spoke to Sharon at KGB Security were yet to respond to my messages and inquiries. I called KGB Security and spoke immediately to Sharon regarding the work I needed, she stated she would call me back; in my mind I was thinking, here we go again. Within ten minutes Sharon had called back with a quote, and being happy with the price, I asked about the timeline, thinking, maybe some time next week. I did explain that without the work I required being completed, I would be unable to perform my role. Sharon, was able to organise the tradesman for a few hours later that day. Sure enough, five minutes before that set time, Paul, the tradesman arrived, looked at what he needed, went to the van and returned to perform the work. The entire transaction, from initial phone call to letting the tradesman out the door, took less than a day. In 2019, this is rare and surprising. If you need old fashioned professional and personable service with a company that provides excellent tradesmanship at decent prices than forget the rest and call KGB Security. Thank you Sharon and Paul, impressive work!!! Nobody had them in stock and could not be bothered getting them in it seemed. Contacted by Allison who was prompt in getting back to me about some minor cosmetic issues with the safe which didn't worry me at all but she gave me a substantial discount for it which was greatly appreciated. Allison kept me updated through the whole process which was excellent customer service. Safe was delivered today by Wayne and Alex who were friendly blokes and worked to get it where I exactly wanted it. All in all was a great experience buying a product from these guys. Highly recommended and I will certainly tell anyone I know who is in the market for a safe to deal with these guys without question.

<http://schlammatlas.de/en/node/23702>

Thanks KGB. I would use them again they were very responsive, had it all installed in a few days and it works like a charm. I can highly recommend these guys Most importantly I'm very appreciative of the time they spent with me making sure my security problems were solved. I would highly recommend their service. They have also been engaged to do lockouts for us which makes a tense

situation easier when you have a professional company in attendance. We have no hesitation in recommending KGB Security and take this opportunity to thank admin staff and field staff for their prompt attention and support. KGB are prompt, reliable, and do everything they can to make installation work seamlessly. Special mention to Kate and Alison in administration what an asset to the company easy to talk to and efficient with it. This is a company that does great customer service. Highly recommend The whole team were a pleasure to deal with and the installation crew went above and beyond. I would recommend KGB Security to anyone needing secure storage facilities. I needed a small part for my safe which they provided in the overnight mail. I highly recommend their services. Thanks guys. They opened a safe within a few minutes. As the job is for a business, they could of charged almost any amount of money, but they chose not to. Definitely recommend. Cheers Thank you Wayne for going above and beyond in the line of duty. So nice that there are still companies which make customer service a priority. Huge kudos. I feel ever grateful for all your help and guidance when I needed it. And going out of your way to make sure my security needs are fully covered. Thanks heaps for your expertise and great service. Wayne is pretty nice. Thank you Wayne and the team. I will be definitely back. Keep up the good work guys I really appreciate your professionalism and honest advice. Call answered quite late after numerous calls to many other supposed 24hr locksmiths. Thank you so much.

Highly recommend this business I have been very disappointed recently with their complete lack of service and interest. I can only assume that there has been a change of management. Goodbye KGB. Following my disappointment with KGB the staff contacted me and sorted out my issues to my complete satisfaction. I found KGB security I didn't realise I had rung a Brisbane company as I live in Sydney but it didn't matter because Kel was more than happy to help me. He stayed on the phone and went through all the steps to fix my issue with my safe. Thank you. Kerry I rang another company who promised to meet me at a specific time and then showed up 50 minutes late. No apology just a couple of grunts. Well he tried opening the lock for 40 minutes and when I hinted he was having a tough time he promptly walked off leaving me dismayed and dumb founded. what the. I eventually called KGB and the man who answered assured me his locksmith A would turn up and B would be able to open the door. 45 mins later he arrived and another 10 mins the door was open. I asked him why the other guy couldnt open the door and he was very diplomatic and almost humble. In fact he explained in great detail why my lock was a tough one. Long story but a huge shout out the KGB Team. Thanks a bunch Jarrod Difficult job and got there. Thanks. I wish now to revise my rating to 5 stars. It was a communication problem that was responsible for the lack of response I initially experienced. Once that was sorted out my requirements were attended to with the usual good service and attention to detail that I have received from KGB over many years. Very professional and knowledgeable would highly recommend to anyone looking at getting a safe transported. Prompt and efficient service. Very pleasant to deal with. Would highly recommend. Thank you Kel, we are very happy with our purchase. Very heavy duty and was what I was after. Had great service and were knowledgeable on the products.

He was very thorough and knowledgeable and happy to assist with my queries. Very helpful and professional. We needed something to be done urgently and Rhiannon made it easy and stress free. She made you feel like your job was at high priority. Great job Rhiannon! However, if you live near KGB Rocklea theres no need to worry. Thanks to Rhiannon for being so friendly, accommodating and understanding the urgency of the situation. She sent a technician Martin to my home very briefly after our conversation. 5 stars. I highly recommend! Went above and beyond to help me with a difficult situation, and then organised to get my keys cut same day. Thank you Rhiannon The booking coordinator dealt with my urgency very well, and had a person out the next morning. They arrived on time, and quickly solved the case of the lost keys. Very professional, friendly guys who got the job done in no time. No hesitation in recommending and giving 5 stars. Things happen sometimes, but

after calling a few times the owner got involved and everything got sorted out quickly and I got my key for free. Great response to my mishandled order, and I appreciate the effort they went to to ensure I was compensated for the trouble. We were able to get the how to guide very easily from the Youtube video. I highly recommend KGB!! To be fair neither did 3 other locksmiths and they knew where to send me to get what I needed. Kel has assisted me greatly with information and tips. Very grateful. Very friendly staff who showed me lots of great options. Definitely met my needs and it was an all round wonderful experience. They sent around a very helpful young man, David, who pulled the door to pieces, fixed the jammed mechanism, restored it to working order and then ensured I understood the combination clearing and setting process. Meanwhile I picked his brains and he chatted happily away providing all sorts of advice on safes. This company KGB sticks by their products.

Their staff are courteous, knowledgeable and helpful. Highly recommend KGB. Please allow 50mm or confirm additional dimension with retailer prior to purchase. Please allow 50mm additional or check with dealer prior to order Alternatively, if you would like more information about our safes for sale or would like to enquire about installation in Perth, contact our team at Safe Central today.
