NOTE To limit bass sent to fullrange speakers, set XOVER MODE to HP. See page 6 to set FREQ and SLOPE. Page 6 INSTALLATION AND SETUP SETTING THE OUTPUT MODE Setting an output mode depends on your choice of system configuration and the nominal impedance of your speaker system. JBL Power Series BPx amplifiers provide rated power into any impedance between 1 and 4 ohms. The BPx500.1, BPx1100.1 and BPx2200.1 amplifiers can be configured to provide high voltage to loads of 2 ohms or greater, or high current for loads below 2 ohms. Page 7 INSTALLATION AND SETUP TROUBLESHOOTING For sealed enclosures, use DBO to enhance the middle of the bass region. Set the HP FREQ control to 35Hz to 40Hz and adjust the BOOST control to taste. This will make the bass sound bigger and fuller. Alternatively, for tightersounding bass, set the HP FREQ control between 45Hz and 50Hz, and also adjust the BOOST control according to your preference. SYMPTOM No audio POWER LED is off 4. Locate the enclosed hardware bag and remove the four clips. If you are here, it was rather the case. However, you are not the only person having problems with keeping the operation manual of all household devices. Below are few guidelines regarding how and why you should collect the product manuals. However, we believe that the manuals should include the most important and needed information about JBL BPx500.1, not to discourage the user to read. Obviously, if a device JBL BPx500.1 has multiple advanced functions, we will not avoid a high amount of information in this document. Then, it will be much easier to find it than look through the purchase boxes which have already been thrown away by you or any other of household

members. It will be enough to clear the drawer once in a year and throw away any manuals of the devices you do not use anymore. <http://sterenstein.ru/userfiles/counterpoint-sa-220-service-manual.xml>

Thus, you can avoid storing any unnecessary documents and keep only those which are valid. You can also download and print the manual JBL BPx500.1 to place it in your drawer. The product manual has been written under the authority of the producer of the product and must contain specific types of info as it pertains to your product. You could also download Adobe Acrobat, which can open and organize PDF files, if you cannot open the file on your computer or phone. The lack of an instruction or false information given to customer shall constitute grounds to apply for a complaint because of nonconformity of goods with the contract. In accordance with the law, a customer can receive an instruction in nonpaper form; lately graphic and electronic forms of the manuals, as well as instructional videos have been majorly used. A necessary precondition for this is the unmistakable, legible character of an instruction. Therefore, in an instruction of JBL BPx500.1 one could find a process description. An instructions purpose is to teach, to ease the startup and an items use or performance of certain activities. An instruction contains a number of clues concerning respective functionalities, safety rules, maintenance methods what means should be used, eventual defects of JBL BPx500.1, and methods of problem resolution. Eventually, when one still cant find the answer to his problems, he will be directed to the JBL service.

Lately animated manuals and instructional videos are quite popular among customers. These kinds of user manuals are effective; they assure that a customer will familiarize himself with the whole material, and wont skip complicated, technical information of JBL BPx500.1. After a successful

purchase of an item one should find a moment and get to know with every part of an instruction. Currently the manuals are carefully prearranged and translated, so they could be fully understood by its users. The manuals will serve as an informational aid. The crossover adjustment range is 32Hz 320Hz. Thanks Crown. Frequencies below an enclosures tunign frequency can be attenuated, preventing damage to the subwoofer and allowing the amplifiers power to be better utilized No highloss Yadapters or splitteres needed. Do not substitute another kind. Suitable locations are under a seat provided the amplifier doesn't interfere with the seat adjustment mechanism, in the trunk, or in any other location which provides enough air for the amp to cool itself. Do not mount the amplifier with the heat sink facing downward, as this makes convection cooling of the amplifier impossible. Using the amplifier as Make sure the amplifier is mounted securely. Please adhere to the following instructions carefully Refer to the chart below to determine minimum Do not install the fuse at this time. Be sure to use appropriate grommets whenever routing wires through the firewall or other sheet metal. Failure to adequately protect the positive wire from potential damage may result in a vehicle fire. If you are running a dedicated wire to this amplifier, this fuse should be installed near the battery, as specified above. If you are running multiple amplifiers off a power distribution block, this fuse should be installed between the distribution block and the BPx2200.1. Speaker connections should be made using a minimum of 1.5 mm 2 wire. If your installation differs markedly, you will need to adjust the wire gauge accordingly. Figures 1 through 3 show how to configure the JBL Power Series subwoofer amplifiers models BPx500.1, BPx1100.1 and BPx2200.1 for 2channel, bridgedmono and parallelmono operation also see "Setting the Output Mode" on page 6.
