Moreover, this is one of the most effective and easiest ways to add realism and depth to your work. These allow you to create speckle and splatter effects that look like you've flicked paint or ink onto your image. However, there are so many different types of speckle brushes out there, that it can be hard to know which set to pick! We've scoured the market to round up the best speckled paint brush for Procreate to make your decision a little easier. 1. Splatter & Speckle Procreate Brushes Download Now! This product is fantastic for people who want to add a trendy, watercolor style to their work. The package comes with 15 different stamps, 10 of which are watercolor style, and 5 are speckle. This set is quite versatile, as the stamps can be used in numerous ways. The speckle effect brushes can be used to bring life to forms that may otherwise be solid blocks of color by creating exciting textures. The watercolor speckle brushes can be used to create a classic watercolor image. Think bucolic images of the countryside or stormy renderings of the ocean. Additionally, the brushes can be used to create modern and captivating illustrations, such as those in the image displayed above. If you're a designer working with clients, it's great to have the ability to create this style. Note that this has become more fashionable in recent years and is commonly requested. This package has been carefully created by a designer based in London. He has put a lot of thought into creating brushes that are effective and easy to use. Finally, at only \$10 for a personal license and \$12 for a commercial one, they are competitively priced. Pros & Benefits: Change brush sizes easily while keeping the textures high qualityCreate diverse effects and imagesTrendy Download Now! 2. Paint Splatter Brush Set Download Now! Firstly, this paint splatter brush set will let you create stunning pieces of art. Moreover, it will look like you've put oil on a piece of paper. Secondly, this package comes with 21 ink splatter effects, all of which are high resolution. Thirdly, we love these brushes as they add a dimension to painting, which is so realistic. Fourthly, the designer of this package created the brushes by drawing with real ink onto paper. Then, he scanned scanned and cleaned up the images. Hence, when you use the brushes, you've thrown paint onto your canvas with a paintbrush. Fifthly, the beauty of this set of brushes is that you don't just have to use them for traditional oil painting style images. In addition, they can also be used to create arresting typography. For instance, by adding paint splatters onto bold, curved letterings. Sixthly, the brushes are also very adaptable as they come with some dynamic elements. Seventhly, you can rotate the brushes. Hence, the ink splatters are in the right direction. Moreover, you can easily tap and scale so that they are placed precisely on the right place. Eighthly, these brushes could be a great addition to your Procreate. Most especially, if you want to channel your inner Van Gogh or Vermeer. Finally, this beautiful pack can be yours for \$15 for a commercial license and \$12 for personal. We think that's a steal! Many of us know the joy of rummaging around our pen drawer and finding our favorite pen to create a beautiful calligraphy work. It can be hard to digitally recreate the mottled, speckled effect that we often love to use to create stunning calligraphy. With this brush, you can finally replicate this style on Procreate! The brush easily blends colors that you are using, focusing on keeping their integrity rather than letting the meld in together. An example is that if you were to use red and green, they wouldn't become a brown color when overlaid, but would instead turn into a vibrant yellow. The brush is fantastic, as the designer was inspired by her years of collecting and designing calligraphy. Rest assured, when using this pack, you'll be creating the writing, which looks just as though it has been created in analog on paper with real ink. There are many ways to use this pack, from creating luxurious wedding invitations with calligraphy style writing to personal notes to friends and posters for businesses. The glowing reviews speak for themselves with this pack, with previous buyers applauding how well the brushes can blend colors. You can snag this pack for just \$3.90. Procreate Ink Splatter Brushes Download Now! This is another set of ink splatter brushes that could be an excellent choice for artists looking to add a realistic inky feel to their work. The set comes with six classic ink speckle brushes, which allow you to create vintage style images in a second. We would recommend using this set to create a vintage atmosphere in invitations, posters, or cards. You can use the lighter, more watery speckles to create landscapes that look as though they've been shrouded in mist. The more speckled brushes, with more excellent dots, can be used to change the texture of images you are drawing or to give interest to backgrounds. With this pack, you can ensure that the images you create are as convincing as if you had drawn them on paper. When did you used ink and managed not to leave any splotches on the paper?! The set comes with six brushes, each with different shades and textures that cover almost all the types you need. The brushes are easy to use and have high responsiveness, allowing you to place them in precisely the right place. This set of brushes costs \$5.20, which is a fair price for the quality of the brushes.
