Emily in paris outfits

There's no two ways about it, Emily in Paris was not received kindly by reviewers. And the fashion came under fire too (berets = clich  d, apparently). But the critics can eat their hats because consumers who, let's face it, hold much more power in these matters anyway, were thoroughly on-board with the titular character's eclectic style of dress.Filming started several months ago on the second season and so far the location shots are majoring in on summer occasionwear. In one shot, our heroine is wearing one of her signatures, a black-and-white bucket, with a patchwork and rose-printed minidress from Dolce & Gabbana. The exact style is still available for   1,750, which might push the boundaries of reality when it comes to a marketing executive's salary, but let's roll with it.There's also been a ruffled (and mullet-hemmed) dress in sky blue from Magali Pascal, currently sold out, which she paired with a tangerine tote bag from Carel (Alexa Chung is a big fan of its strappy Mary-Janes). The latest shots to drop show a slightly more wintry wardrobe. In one, Emily wears a striped polo knit with an apple green coat (Diane Von Furstenberg has a great take on the short-sleeved jumper with a blue and pink diamond print that would be right up a certain someone's rue). In another, she's sporting an exuberantly printed coat (with a mask and cosy boots between takes).If last year's impact on shoppers was anything to go by, you can expect viewers to be clicking 'add to basket' as soon as the series airs. According to global fashion search platform Lyst, searches for items included in the first season skyrocketed after its premiere. On their shopping list was Kangol's bucket hat - searches increased by a whopping 342% - and Ganni's asymmetric skirt - demand surged by 289% in the 48 hours after the show dropped on Netflix.Brands who've experienced extra traffic include Marc Jacobs (92%), Kate Spade (34%) and Ronny Kobo (22%). But perhaps the biggest decider of all? Searches for red berets - yes, the symbol of all that is wrong with Emily in Paris - increased by 100%.Without further ado, here's how to shop the outfits from seasons one and two. De rien!1 of 28CREDIT: GettyEmily has been snapped sporting a striped polo knit in a typically clashing colour palette of pink, blue and green. Further evidence that her season two style is just as fun. 2 of 283 of 28CREDIT: GettyIn one of the first outfits we've seen from season two, Emily is squealing with delight and wearing this itty-bitty dress from Dolce & Gabbana. 4 of 285 of 28CREDIT: Emily In ParisFresh from the airplane, Emily makes her grand entrance in...a checked shirt. It might fall slightly short of a certain someone's striped ensemble (ahem, Carrie), but for laidback points, plaid wins every day. 6 of 287 of 28CREDIT: Emily In ParisThe beret might be a terrible clich  , but we're still tempted by a cherry red topper. Et tu? 8 of 289 of 28CREDIT: Emily In ParisSylvie's wardrobe - a sparing study in black and, occasionally, olive - is undeniably chic. Her secret is svelte black pencil dresses - when was the last time you wore one of those, eh? - and a slightly ruffled blow-dry. 10 of 2811 of 28CREDIT: Emily In ParisMindy, Emily's first friend in Paris, is also partial to plaid. 12 of 2813 of 28CREDIT: Emily In ParisMindy's jewellery signature is a choker necklace, but we also love the 'wear-with-anything' potential of these chain-link earrings. 14 of 2815 of 28CREDIT: Emily In ParisAs it's officially layering season, why not take your cue from Emily? Lace blouse + tunic dress = warm + cool. 16 of 2817 of 28CREDIT: Emily In ParisSylvie's tip for really giving your little black dress legs? A thick waist belt. 18 of 2819 of 28CREDIT: Emily In ParisA leather blazer is one of the more restrained items of Emily's. Wear it with a tank top and straight-leg jeans. 20 of 2821 of 28CREDIT: Emily In ParisEmily's has an impressive collection of handbags, but our favourite's this sleek top-handle. Even Sylvie seems to approve...22 of 2823 of 28CREDIT: Emily In ParisAccording to Lyst, searches for this bucket hat (a classic from Kangol) increased by 342% as a result of Emily in Paris. 24 of 2825 of 28CREDIT: Emily In ParisMarc Jacobs's Snapshot Camera bag - a cute cross-body that has the titular star written all over it - also experienced the effect of Emily In Paris, with searches increasing by 92%. 26 of 2827 of 28CREDIT: Emily In ParisWould you believe us if we said that this jumper - jazzy by usual standards - is relatively pared-back for Emily? 28 of 28 Credit: Emily In Paris/Netflix Admit it, you've been living vicariously in your sweats through Emily Cooper in Emily in Paris as she traipses her way through the city of love, donning vibrant colours and designer pieces galore. Despite its very clich  d plotline, Emily in Paris was destined for fashion fame. Its costume design masterminded by none other than Patricia Field, the woman behind the closet of '90s fashion icon character Carrie Bradshaw in Sex And The City. From preppy blazers and draw-dropping evening gowns to eccentric raincoats, here are some of the best fashion looks in Emily In Paris that made us say "Oui!": Parisian chic Credit: Emily In Paris/Netflix Find us a more Parisian outfit - we'll wait. This Veronica Beard plaid set styled with a classic Chanel crossbody and red beret screams "Pah-rhee". Short of holding a pain au chocolat, Emily nails the "basic girl wearing what they think they should wear in the city of love" look. Though it might be peak French Clich   101, she does look kinda cute. We all know deep down that we'd dress the same if we were in Paris... Shop the look: Go-getter green Credit: Emily In Paris/Netflix Elegant Chanel tweed coat meets the everyday plaid bucket hat - not a lot of people dare to mix luxury prep with casual streetwear, but Emily went there, topped the look with a floral neck scarf, and pulled it off (in monotone too). Shop the look: Audrey Hepburn at the ballet Credit: Emily In Paris/Netflix From the delicate silver headpiece to the sultry fur coat down to the off-the-shoulder gown, this Emily in Paris outfit took our breath away. Emily channels her inner Audrey Hepburn in this beautiful ensemble as she gracefully enters Palais Garnier, the same opera house Hepburn was spotted in as protagonist Jo Stockton in the '50s film, Funny Face. Shop the look: Be bold Credit: Emily In Paris/Netflix Take note, this is how you style bold colours with hold prints. Walking on sunshine Credit: Emily In Paris/Netflix Emily dons a lightweight spring look as she sits on a bench in the Jardin du Palais Royal. This flowy sunshine yellow maxi is a breath of fresh air. It's bright, but not loud. Finish the look with a statement bag and contrasting belt for added shape. Shop the look: Cozy country patchwork Credit: Emily In Paris/Netflix Who says you can't make a fashion statement biking in the countryside? As Emily proves with this outfit, being practical is not an excuse to not look fab. Shop the look: Dreamy pastels Credit: Emily In Paris/Netflix This look veers away from Emily's usual vibrant palette and frames her in dreamier, softer hues. You can never go wrong with cream and baby pink. Shop the look: Don't rain on my parade Credit: Emily In Paris/Netflix If there's something we know about Emily by now, it's that she's never concerned about a risqu   clashing print, let alone showing up to a major fashion event at the Louvre in a transparent raincoat with coloured hems, on top of a black embellished dress. What even is a fashion faux pas? It's time to live it up a little like Emily and experiment with whatever floats your boat, especially now. Don't be afraid to spice up your Zoom meeting by turning up in a raincoat - what've you got to lose? I haven't seen so many different coloured bucket hats since Splendour in the Grass in 2017.It's no coincidence that the eclectic fashion feels very Sex and the City, as the iconic series' costume designer Patricia Field was recruited for the Netflix series. That said, not all of the fashion works. More specifically, series protagonist Emily Cooper is no Carrie Bradshaw and her choices often come across as trying too hard.Like seriously, does she have to wear a matching hat with every outfit, and can she ever dress like an actual 22-year-old? Despite quite a few missteps, some of Emily's outfits aren't terrible. There are some looks that left my jaw on the floor, so it's time to rank the best/worst of the season.We ranked Emily's most memorable outfits in Emily in Paris:15. Emily in Batfling Exercise AttireWhile this is far from the craziest thing Emily wore, there's nothing worse than impractical exercise clothes and this is just ridiculous. The leggings are fine - basic, but fine - but what the hell is Emily doing wearing a loose-fitting, crochet crop top? Sacr   bleu! A mess.14. Emily in a Printed Shirt & Snakeskin SkirtThis look is just SO MUCH. I don't hate each individual item, but putting them all on together hurts my eyes. The shirt paired with the skirt could work if the accessories were simple. But instead Emily chuckled on fluro ankle boots and a cream and black bag that simply boggles the mind.13. Emily in Puffy Shakespeare Shirt & JeansI want to like this but I can't. It's the shirt paired with the jacket for me, it just looks too formal - especially for a road trip?! It's the kind of thing I'd wear with a pencil skirt for a work experience job interview when I'm trying to look like an adult.12. Emily in a Big Shoe CoatI just hate this. From the furry bag, to the outdated collar necklace, to the coat, I hate everything about it. It's horrendous.11. Emily in a Floral Puffy Coat & Pink BeretThis is a classic Emily ensemble. She is just doing the most, at all times. The floral jacket is one thing, but the pink beret is overkill.10. Emily in This HatI'm so torn with this outfit. The shift dress paired with the delicate lace blouse is GORGEOUS. I adore the combo and it just works. But then Emily has to go and put on this hat. A hat that appears to be a red and white floral-printed fedora. This hat is the reason the French despise her. This hat is why Gabriel won't dump Camille. This hat must be stopped.9. Emily in Pink on Pink on PinkI'm in love with this outfit as I meet Emily's eyeline, then as my gaze lowers down towards Emily's feet, it turns into a horror movie. I love the pink and it's impressive that Emily has matched the hue across so many items. However, the pink socks with pumps are just naff. Not into it. Chuck the socks in the Seine and this outfit is flawless.8. Emily in a Crop TopTopThis outfit might not look like much, but I believe it's the closest Emily ever came to dressing like a 22-year-old. When I was that age, I wasn't repping Chanel jackets or Christian Louboutin pumps, I was wearing jeans and a nice top. Jeans and a nice top is as good as it ever got for me and this outfit is simple but cute.7. Emily in a Baby Pink Matching SetThis look on Emily is super sweet. She, of course, eventually adds a ugly matching hat outside of the office but this outfit on its own is adorable.6. Emily in a Checkered SuitEmily is all about a matching set and this is my favourite. It's simple, the Chanel bag is the perfect accessory and somehow the red beret doesn't make me want to claw my eyes out. Magnifique!5. Emily in Houndstooth, Pink & WhiteNow THIS is how you mix colours and patterns. The pops of pink contrasted with the black and white is perfection.4. Emily in a BeanieAside from the jeans and nice top ensemble, this is the only Emily outfit that I would wear and not look completely out of place. It's cute, cuddly and farmer's market-ready.3. Emily in a This Better HatEmily wears a lot of hats and for the most part, they seem to take away from her outfits. But in the case of the bucket hat she wore to the influencer event, this hat makes the outfit. The matching tartan dress and different shades of green are an arc de triomphe.2. Emily in Black, White & NudeI die for this outfit. The tan paired with the contrasting monochromatic patterns is stunning - and I need that tassel bag in my life asap even if it costs me three-months rent.1. Emily in All BlackNow THIS is tr  s chic and probably the only look that would see Emily pass for a local. She may have steered clear of black the entire season, but the all-black outfit Emily wore to the ballet was her Carrie Bradshaw moment. Flawless from top to bottom.-Emily in Paris is now streaming on Netflix. It's so bad it's good. The Netflix guilty pleasure Emily in Paris has even been nominated for two Golden Globes, despite the hammering the show received from critics. I just can't stop watching it. Besides Emily, Camille, and Gabriel's love triangle, the Emily in Paris outfits put me on a serious rollercoaster of emotions. Here's a definitive ranking of Emily, Sylvie, Mindy, and Camille's outfits from best to worst, to help you process what the hell just happened. 1. Camille's Fashion Faceoff [Image Description: Emily and Camille standing next to each other outside of Emily's apartment. Emily (left) is wearing a plaid white jacket, pink beret and skirt, and white boots, Camille (right) has her hair in a high ponytail and is wearing a white ruffled shirt, wide-leg jeans, and chunky heels.] Via Netflix.I love a good chunky heel. And a high ponytail. And a ruffled shirt. And wide-leg jeans. Seriously, I love just everything about this outfit. Despite the fact that there are major tensions here, all I could think about was Camille's outfit. 2. Camille's Denim Attire [Image Description: Camille stands by her car talking to Emily. Camille is wearing a black beret, denim jacket, jeans, and red top.] Via Netflix.Let's be real, everyone is always dressed up on this show. It makes me feel a little insecure when I'm watching this show for the third time on my couch at 5 pm, still in my pajamas. Camille is giving me all of the casual Parisian vibes we need here. 3. Emily's Office Ruffles [Image Description: Emily sits in an office with her hands out and an excited expression. She's wearing a plaid red jacket with a white ruffled shirt.] Via Netflix.Yet again, a good ruffled shirt. For once, Emily gives us a break from her usual pattern on pattern fashion choice by giving us this somewhat simple outfit. 4. Mindy's Animal Print Galore [Image Description: Mindy (left) drinks an alcoholic beverage next to Emily (right) who holds her glass and is talking. Mindy is wearing an animal print folded blazer styled dress. Emily is wearing a green metallic jacket and pink scarf.] Via Netflix.I absolutely love a folded blazer styled dress. Mindy, just like Emily, isn't usually one for matching her outfits, so major brownie points for giving us a different look. 5. Camille's Chic Plaid Attire [Image Description: Camille is walking and smiling and wearing a beige check dress.] Via Netflix.Oh Camille, so effortless, so chic. I would put it higher up on the list because I absolutely adore this outfit, except for the fact that I'm not sure I could pull this off, so I'm a bit salty. 6. Emily's Chic Caf   Coat [Image Description: Mindy (left) and Emily (right) sit at a caf  . Mindy is wearing a blue shirt tied around the waist over a white top and shorts. Emily is wearing a green coat.] Via Netflix.Let's just take a moment and clap for how good jewel tones look on Emily, especially paired with this printed neck scarf. However, I had to dock a few points for the shoes. How about a classic white sneaker? Sorry, Emily. 7. Sylvie's Timeless LBD [Image Description: Sylvie (left) stands next to one of her employees (right). Sylvie is wearing a black dress with a black belt around her waist. The employee is wearing a light blue shirt with a dark blue blazer.] Via Netflix.Sylvie is always for the classic and timeless outfits and I'm definitely here for it. The statement bracelet and the thick belt makes this outfit for me. A square neckline? Yes, please! 8. Emily's Nod To Audrey Hepburn [Image Description: Emily standing on a staircase wearing an off the shoulder black knee-length dress.] Via NetflixI don't know if it's because of the major girl power Emily gives off in this scene, but this girl looks like she should be on stage, performing in Swan Lake, herself, because goddamn girl, you look good. 9. Sylvie Strikes Again With An LBD [Image Description: Sylvie at a party wearing a black mesh dress, holding a cigarette in one hand and a black clutch in the other.] Via NetflixAgain, a timeless look. Sylvie is usually for the gold jewelry, but here she switches it up with some silver pieces. Also, who doesn't love a good mesh dress for an event that happens to be for the man you are sleeping with and his wife? 10. Emily's Hot Pink Attire [Image Description: Emily, Sylvie, and male coworkers review Antoine's scents for a client. Emily is wearing a pink dress, Sylvie is wearing a black patterned top and black skirt, male coworkers are wearing shirts and blazers.] Via Netflix.I had to bring this outfit further down than I wanted to because, truly, I would want this outfit for myself if it wasn't for the hot pink. The two-piece look has been a staple trend for years now, and Emily is bringing justice to it. 11. Emily's Casual Look [Image Description: Emily is standing and talking to Camille with a worried expression on her face. Emily is wearing a pink beanie, hoop earrings, multi-colored sweater, and black jacket.] Via NetflixUm, why doesn't Emily wear big hoops all the time? Here, her hat and earrings are definitely pulling the weight of the outfit. Finally, a little color stabilization, and not a loud jacket that makes my eyes go out of focus. 12. Mindy's Floral Dress And Accessories [Image Description: Mindy sits at a table with Emily. Mindy is wearing long earrings, a black choker, a drop necklace, and a pink floral dress.] Via Netflix.It's often Mindy's accessories that bring her outfits down for me, and this is definitely one of these instances. Cut out the star earrings, the green purse, and the necklace, and this outfit would be tr   chic. 13. Emily's Sunny Yellow Attire [Image Description: Emily sits on a park bench with her hands out and a frustrated expression on her face. Emily is wearing a long, yellow dress that features a pattern in black and a black belt around the waist.] Via Netflix.Normally, I would be all for Emily in yellow, but the yellow and black combination is not for me. I'm not quite sure why. Maybe an internalized fear of bee stings from my youth? I will check in with my therapist later about that. 14. Emily's First Day At The Office Look [Image Description: Emily stands with an excited expression in her office. Emily is wearing a shirt with an image of the Eiffel Tower and a green patterned skirt.] Via Netflix.Okay, Emily. I can forgive you for this one. You just got to Paris, you must be jetlagged, and maybe you need sleep, but this is just not working. 15. Emily's Wining And Dining Attire [Image Description: Emily sits with a glass of wine at a table. Emily is wearing a black, jeweled collar and jacket that features images of shoes.] Via Netflix.I'm not even sure what to say here. Save the shoes for your feet. 16. Emily's Crop Top And Jeans Selfie Look [Image Description: Emily (right) and the boulangerie owner (left) take a selfie for her Instagram. Emily is wearing a hat, white crop top, and jeans. The boulangerie owner is wearing a blue patterned shirt dress.] Via Netflix.Individually, maybe each of these pieces would work. But together, it's truly a catastrophe and I'm not sure I will ever be able to recover. 17. Mindy's Shirt And Denim Shorts Attire [Image Description: Mindy (left) and Emily (right) sit at a caf  . Mindy is wearing a blue shirt tied around the waist over a white top and shorts. Emily is wearing a green jacket.] Via Netflix.Mindy, Mindy, Mindy. What am I to do with you? I'm trying really hard, but this outfit is just making it so difficult for me. 18. Emily's Green and Pink Galore Look [Image Description: Emily walks into the office holding a bouquet of flowers. Emily is wearing a green metallic jacket over a pink and green dress.] Via Netflix.After seeing this outfit, I wonder if Emily has opened up a Justice brand store on the streets of Paris. 19. Emily's Mish-Mash of Colors [Image Description: Emily stands at Sylvie's door with a shocked expression on her face. Emily is wearing a blue cardigan over a white top, and a khaki camouflage skirt with pink lace trim.] Via Netflix.I have no words. I am left absolutely speechless. Okay, so the outfits are a wide range of extremes, but who cares, I still am going to watch the hell out of the second season. Get The Tempest in your inbox.
