AHG Auto Service Make Honda What are the trim packages on Honda Accord? Honda Accord Trim PackagesThe Honda Accord offers a comprehensive lineup of distinct trim levels to cater to different driving preferences and needs. The available trim packages may vary depending on the model year, but here are some commonly mentioned trim levels for the Honda Accord:1. LX2. Hybrid3. Sport4. Sport Special Edition5. Hybrid EX6. EX-L7. Touring 2.0TThese trim levels offer their own unique features and price points. Its important to carefully check the trims of the car you're interested in to ensure that you're getting the features you want.Please note that the availability of specific trim levels may vary depending on the model year and region. Its always a good idea to check with a Honda dealership or the official Honda website for the most up-to-date information on trim packages for the Honda Accord.I hope this helps! Let me know if you have any other questions. Whats the difference between Honda Accord EX and EX-L?The EX-L is essentially an Accord EX with leather seats, but it also comes only as a hybrid. It also gets a few additional features including parking sensors and a memory function for the power drivers seat.What are Hondas trim levels?Understanding Honda Trim LevelsLX The Base Trim Level.Sport Athleticism Meets Comfort.EX Extra Comfort and Technology.EX-L Luxury on a Budget. What is the top Honda trim?The top-trim Civic Touring adds chrome-colored door handles, LED headlights with auto on/off, rain-sensing intermittent wipers, integrated LED turn indicators on side mirrors, heated rear outboard seats, a 450-watt premium audio system with 10 speakers including subwoofer, satellite-linked navigation with voice What Honda Accord is fully loaded?The delightful Honda Accord Touring is the fully loaded option for this sedan and doesnt disappoint, offering most of anything you could ask for.Which Honda Accord is better EX or LX?LX is just a base-level trim, which means it is the least expensive and has the fewest features of the car it is named for. Most of the time, the EX trim of a Honda car makes it better in terms of comfort and looks. For example, the 2020 Honda Accord LX has a four-speaker audio system with Bluetooth.What is better LX or EX on Honda?While the EX is a higher-trim level than the LX, it still comes with cloth seats and a 7-inch touchscreen. However, more interior features make the EX worth the extra cost. With heated front seats and a power drivers seat, you get an even more comfortable ride (as long as youre the driver).What are the differences in Honda Accord trim levels?Honda Accord LX vs. Sport vs. Touring: Compare the Popular TrimsLXSportSeating Capacity55Apple CarPlay/Android Auto IntegrationYesWirelessWiFi Hotspot CapabilityNoNoBlind Spot Information SystemNoYes (2.0T Model) What is the lowest Honda trim?Understanding Honda Civic Trim LevelsLX: The base model of the Honda Civic, which comes with a 2.0L four-cylinder engine and automatic transmission. Sport: Comes with a 2.0L four-cylinder engine, a sport-tuned suspension, and a six-speed manual transmission.What is the Honda EX-L package?2023 Honda Accord EX-L HybridIncludes most Sport Hybrid specs, plus: 17-in. pewter-painted alloy wheels. Heated, body-color side view mirrors. Two-position memory for drivers seat.Which Honda Accord is top of the line?Positioned at the top of the Accord lineup is the luxurious Touring Hybrid trim. If youre searching for the ultimate Accord experience, look no further than the Accord Touring Hybrid. The Accord is one of Honda's longest-running and most enduring models, with a history spanning over four decades. It has also resonated quite well with U.S. consumers this whole time. As at 2020, Honda had sold more than 14 million units of the Accord, which not only makes it one of the most successful models in the brand's illustrious history, but also underscores its status as one of the most commercially successful cars of the past 40 years. Fortunately for fans of the well sought-after model, the Honda Accord's run of success doesn't seem to be ending anytime soon, with the midsize sedan having rolled into its 11th generation in 2023. And like the previous year, Honda offered the Honda Accord in six trim levels for 2024: LX, EX, Sport Hybrid, EX-L Hybrid, Sport-L Hybrid, and Touring Hybrid. Each of these Honda Accord trims offers a variety of features and equipment to cater to different needs and preferences, with each introducing an increased level of comfort and technology the higher you go. Here's a look at what you get with all the Honda Accord variants in terms of their key features. The smallest Honda Accord screen is a 7-inch touchscreen display. It is standard on the Honda Accord LX alongside a 10.2-inch digital gauge cluster, wired Apple CarPlay and Android Auto connectivity, Bluetooth connectivity, a Wi-Fi hotspot, two 3.0-amp USB-C ports, and a four-speaker, 160-watt audio system. The Honda Accord EX is specced similarly to the entry-level EX, but you do get an eight-speaker, 180-watt audio system instead of the LX's four-speaker, 160-watt one. On the Honda Accord Sport Hybrid trim, you step up to a 12.3-inch touchscreen infotainment system with wireless Apple CarPlay and Android Auto support, Amazon Alexa, and an HD radio. Its sound system is also the same as the eight-speaker one on the EX. The Accord EX-L Hybrid and Accord Sport-L Hybrid are both similar to the Accord Sport Hybrid in their infotainment features, but they offer two additional 3.0-amp USB-C ports in the rear. The range-topping Accord Touring Hybrid, for its part, amps up the convenience with a Google built-in voice assistance system, a 15-watt wireless smartphone charging pad (available as an option on the Accord Hybrid Sport, Hybrid EX-L, and Hybrid Sport-L), as well as a 12-speaker Bose audio system. Like all good Hondas, the Accord is well-known for its comfortable, upmarket interior. However, the features you get vary depending on the trim level opted for. The base LX comes standard with automatic climate control, push button start, cloth upholstery, and manually adjustable driver seat. Taking a step up from the LX, the Honda Accord EX increases the comfort level with a dual-zone automatic climate control system, heated front seats, a power-adjustable driver's seat, and a power moonroof. To these features, the Honda Accord Hybrid trim adds a leather-covered steering wheel, while the Honda Accord EX-L Hybrid and Sport Hybrid offer even more in the form of power functionality for the front passenger seat, memory settings for the driver's seat, and leather seating surfaces. The fully loaded Honda Accord Touring Hybrid amplifies the luxuriousness even further with a head-up display, heated and cooled seats, as well as heated rear seats. The Honda Accord is available with hybrid and a non-hybrid gasoline-fuelled powertrain options. The base LX and EX feature a fully gas-run 1.5-liter turbocharged VTEC four-cylinder direct-injection engine that is good for 192 horsepower and equal torque. The engine is paired with a continuously variable transmission (CVT) that sends that output to the front wheels. In a 2023 Honda Accord EX, the combination helped propel the sedan to 60 mph in 7.3 seconds and the quarter mile in 15.6 seconds, according to data from Zeroto60times. As for the Honda Accord fuel economy, models with the 1.5-liter turbo-four get an EPA-rated 29 mpg in the city, 37 mpg on the highway, and 32 mpg combined. The Honda Accord Sport Hybrid, EX-L Hybrid, Sport-L Hybrid, and Touring Hybrid trims, meanwhile, feature a hybrid powertrain that pairs a naturally aspirated 2.0-liter DOHC four-cylinder engine with two electric motors for 204 total horsepower and 247 lb-ft of torque. The transmission in this case is an electronically continuously variable transmission (e-CVT) with deceleration selectors. So equipped, the powertrain launches the 2024 Honda Accord Touring Hybrid from zero to 60 mph in 6.6 seconds. All Honda Accord Hybrid models come equipped with four drive modes: Normal, ECON, Sport, and Individual. The EPA fuel economy estimate for the Honda Accord Hybrid EX-L is 51 mpg in the City, 44 mpg on the highway, and 48 mpg combined. The Accord Hybrid Sport, Hybrid Sport-L, and Hybrid Touring are slightly less efficient, returning 46 mpg in the city, 41 mpg on the highway, and 44 mpg combined. In keeping with Honda's "Safety for Everyone" catchphrase, all six Accord models come standard with the Honda Sensing suite of safety and driver-assistive technologies. However, some models are more loaded than others. The base Honda Accord LX trim is equipped as standard with forward collision warning, forward automatic emergency braking, traffic-sign recognition, and lane-departure warning. As well, potential owners can expect to find adaptive cruise control, pedestrian and cyclist detection, lane-keep assist, traffic-jam assist, automatic high-beam headlights, a rear-seat alert as well as a rearview camera as part of the package. The Accord EX and Accord Sport Hybrid also get all of these features but add blind-spot monitoring with rear cross-traffic alert. The Accord EX-L is similar to the Honda Accord EX, but adds front and rear parking sensors, which becomes unavailable when you step up to the Sport-L trim. However, you do get back front and rear parking sensors when you step up to the range-topping Accord Hybrid Touring trim, which also features rain-sensing windshield wipers. The Honda Accord, a perennial favorite in the midsize sedan segment, offers a diverse range of trim levels catering to various tastes and needs. But what are Honda Accord trim levels, and how do they differ? This blog post will guide you through the intricacies of the Accords trim hierarchy, helping you understand the nuances of each option and find the perfect match for your driving desires.The Foundation: The Honda Accord LXThe Honda Accord LX, the entry-level trim, is the foundation upon which the Accords lineup is built. This value-focus trim prioritizes affordability without compromising on essential features. It comes standard with a 1.5-liter turbocharged four-cylinder engine generating 192 horsepower and 192 lb-ft of torque, paired with a continuously variable transmission (CVT).The LX offers a comfortable and spacious cabin with cloth upholstery, a 7-inch touchscreen infotainment system, Apple CarPlay and Android Auto integration, and a suite of safety features. While it may not boast the luxurious amenities of higher trims, the LX provides a solid foundation for a reliable and fuel-efficient driving experience.The Sporty Option: The Honda Accord SportFor those seeking a more dynamic driving experience, the Honda Accord Sport is the perfect choice. It builds upon the LXs foundation by introducing a more powerful 2.0-liter turbocharged four-cylinder engine that generates 252 horsepower and 273 lb-ft of torque, paired with a 10-speed automatic transmission. The Sport trim also features a sportier suspension tuned for sharper handling and a more engaging driving feel.Beyond the mechanical enhancements, the Sport trim boasts a more aggressive exterior design with a black honeycomb grille, larger wheels, and a rear spoiler. Inside, you'll find sportier seats with leatherette upholstery and a more driver-focused cockpit.The Honda Accord EX takes the Accords comfort and convenience to the next level, offering a more luxurious driving experience. It comes equipped with a host of premium features, including heated front seats, a power drivers seat, a leather-wrapped steering wheel, and a 10.2-inch touchscreen infotainment system with a premium sound system.The EX trim also benefits from the addition of advanced safety features like adaptive cruise control, lane keeping assist, and blind spot monitoring. It maintains the 1.5-liter turbocharged engine and CVT found in the LX, prioritizing fuel efficiency and smooth driving.The Honda Accord Touring sits at the pinnacle of the Accords lineup, offering a blend of luxury, technology, and performance. It features a long list of premium amenities, including a panoramic sunroof, ventilated front seats, heated rear seats, a head-up display, a wireless charging pad, and a premium sound system with 12 speakers.The Touring trim also boasts advanced safety features like a driver attention monitor, a road departure mitigation system, and a rear cross-traffic alert system. Under the hood, the Touring trim is powered by the same 2.0-liter turbocharged engine found in the Sport trim, delivering a thrilling driving experience.The Hybrid Option: The Honda Accord HybridFor those seeking exceptional fuel efficiency without sacrificing performance, the Honda Accord Hybrid is a compelling choice. It combines a 2.0-liter four-cylinder engine with two electric motors, delivering a combined output of 212 horsepower. The Accord Hybrid offers an impressive fuel economy rating, making it a practical choice for daily commutes and longer road trips.The Accord Hybrid is available in LX, EX, and Touring trims, each offering a unique blend of features and amenities. The Hybrid trims feature a unique front grille design, blue accents, and a dedicated hybrid instrument cluster.Navigating the Honda Accords trim levels can feel overwhelming, but understanding the key differences can help you make the right choice. Consider these factors:Budget: The LX trim offers the most affordable entry point, while the Touring trim is the most expensive.Performance: The Sport and Touring trims boast the most powerful engine, offering a more engaging driving experience.Luxury and Technology: The EX and Touring trims offer the most premium features, including leather upholstery, heated and ventilated seats, and advanced technology.Fuel Efficiency: The Accord Hybrid offers the best fuel economy, making it an ideal choice for those prioritizing fuel savings.The Ultimate Accord Experience: Beyond the TrimsWhile the Honda Accords trim levels offer a range of choices, there are additional options to personalize your experience. Consider these:Exterior Color: Choose from a wide range of colors to match your style, from classic silver and black to bolder shades like red and blue.Interior Color: Select from various interior color schemes to create a comfortable and inviting cabin.Accessories: Enhance your Accord with genuine Honda accessories, including roof racks, cargo organizers, and floor mats.The Honda Accord offers a diverse range of trims, each catering to different needs and preferences. Whether you prioritize affordability, performance, luxury, or fuel efficiency, theres a Honda Accord trim thats perfect for you. By understanding the key differences between each trim level and considering your individual needs, you can find the Accord that will be your perfect companion on the road.Questions You May HaveQ1: What is the difference between the Honda Accord LX and Sport trims?The Accord Sport offers a more powerful engine, a sportier suspension, and a more aggressive exterior design.Q2: Which Honda Accord trim is the most luxurious?The Honda Accord Touring is the most luxurious trim, offering a range of premium features like ventilated seats, a panoramic sunroof, and a premium sound system.Q3: Does the Honda Accord Hybrid come in different trims?Yes, the Accord Hybrid is available in LX, EX, and Touring trims, each offering a unique blend of features and amenities.Q4: Can I customize my Honda Accord?Yes, you can personalize your Accord with a range of exterior colors, interior color schemes, and genuine Honda accessories.The Honda Accord is a mid-size sedan that has been in production since 1976. It is known for its reliability, fuel efficiency, and spacious interior, and has consistently been one of the top-selling vehicles in the United States. Over the years, the Accord has undergone several redesigns and changes, with each new generation introducing new features and technology. The current, tenth generation Accord was introduced for the 2018 model year and continues to be a popular choice among car buyers. The Honda Accord is currently available in five main trim levels: LX, Sport, EX, EX-L, and Touring. Here is a brief overview of each trim level: The LX is the base trim level of the Accord and comes equipped with a 1.5-liter turbocharged four-cylinder engine and a continuously variable automatic transmission (CVT). It includes a number of standard features such as LED headlights, automatic climate control, and a suite of advanced safety features. The Sport trim adds a number of sporty exterior and interior features, as well as a more powerful 2.0-liter turbocharged four-cylinder engine and a six-speed manual transmission (optional). It also includes a sport-tuned suspension for a more agile driving experience. The EX trim level adds a number of convenience and comfort features, such as a power moonroof and a 10-way power-adjustable drivers seat. It also includes an upgraded infotainment system with Android Auto and Apple CarPlay. The EX-L trim adds luxury features such as leather upholstery, a power-adjustable passenger seat, and a premium audio system. The Touring trim includes all of the features of the lower trim levels, as well as additional luxury and convenience features such as wireless charging and a hands-free power trunk. It also includes an advanced version of the safety suite, with features such as traffic sign recognition and front and rear parking sensors. Here is a detailed breakdown of the features available in each trim level of the Honda Accord: LX Highlighted Features Engine: 1.5-liter turbocharged four-cylinder Transmission: Continuously variable automatic (CVT) Exterior features: LED headlights, LED taillights, automatic on/off headlights, body-colored door handles, power-adjustable side mirrors Interior features: Automatic climate control, seven-inch infotainment display, four-speaker audio system, steering wheel-mounted audio controls, power windows and locks, remote keyless entry Convenience features: One-touch power moonroof, remote start, 60/40 split fold-down rear seatback, 12-volt power outlet, two front USB ports Safety features: Advanced safety suite with adaptive cruise control, automatic emergency braking, lane keep assist, lane departure warning, road departure mitigation, traffic sign recognition Sport Highlighted Features Engine: 2.0-liter turbocharged four-cylinder Transmission: Six-speed manual (optional), continuously variable automatic (CVT) Exterior features: 19-inch alloy wheels, rear spoiler, sport pedals, sport front fascia, dual exhaust finishers, fog lights Interior features: Sport seats, leather-wrapped steering wheel and shift knob, sport instrument panel, sport pedals, aluminum sport pedals, chrome exhaust finishers Convenience features: All features of the LX trim level, plus remote engine start Safety features: All features of the LX trim level EX Highlighted Features Engine: 1.5-liter turbocharged four-cylinder Transmission: Continuously variable automatic (CVT) Exterior features: All features of the LX trim level, plus one-touch power moonroof with tilt feature Interior features: Eight-inch infotainment display, Android Auto and Apple CarPlay, six-speaker audio system, SiriusXM radio, 10-way power-adjustable drivers seat Convenience features: All features of the LX trim level, plus remote engine start, 60/40 split fold-down rear seatback with center armrest and two cup holders, eight-inch high-resolution electrostatic touchscreen display Safety features: All features of the LX trim level EX-L Highlighted Features Engine: 1.5-liter turbocharged four-cylinder Transmission: Continuously variable automatic (CVT) Exterior features: All features of the LX trim level, plus one-touch power moonroof with tilt feature Interior features: Leather-trimmed seats, four-way power-adjustable front headrest, power-adjustable passenger seat, premium audio system with nine speakers, built-in navigation system Convenience features: All features of the EX trim level, plus remote engine start, leather-wrapped steering wheel, HomeLink remote system Safety features: All features of the LX trim level Touring Highlighted Features Engine: 1.5-liter turbocharged four-cylinder Transmission: Continuously variable automatic (CVT) Exterior features: All features of the LX trim level, plus one-touch power moonroof with tilt feature, hands-free power trunk, rain-sensing wipers, front and rear parking sensors Interior features: Leather-trimmed seats, eight-way power-adjustable drivers seat, four-way power-adjustable front headrest, The Honda Accord has been in production since 1976 and has gone through several redesigns and changes over the years. Here is a brief history of the trim levels that have been available for the Accord: 1976-1981: The original Accord was available in two trim levels: Standard and LX. The Standard trim included basic features such as manual windows and locks, while the LX added features such as power steering and a more powerful engine. 1982-1985: The second generation Accord was available in three trim levels: Standard, DX, and LX. The DX trim level was added as a more basic, budget-oriented option, while the LX added features such as power windows and locks. 1986-1989: The third generation Accord was available in four trim levels: Standard, DX, LX, and SE. The SE trim level was added as a more luxurious option, with features such as a leather interior and a power moonroof. 1990-1997: The fourth generation Accord was available in five trim levels: DX, LX, EX, SE, and EX-V6. The Sport trim level (renamed from SE) added sporty exterior and interior features, while the EX-V6 added a more powerful V6 engine and additional luxury features. 1998-2002: The fifth generation Accord was available in four trim levels: LX, EX, SE, and EX-V6. The SE trim level was dropped, and the EX-V6 was renamed to simply EX. 2003-present: The sixth generation Accord introduced the Touring trim level as the top-of-the-line option, with additional luxury and convenience features. The other trim levels remained largely unchanged from the previous generation. Note that the features and equipment available in each trim level have evolved over time and may differ between model years. The Honda Accord has been in production since 1976 and has gone through several redesigns and changes over the years. Here is a table showing the introduction year of each main trim level for the Accord: Trim LevelIntroduction YearLX1976 (as base trim level)Sport1990 (as DX-Sport)EX1993 (as EX)EX-L1997 (as EX-V6)Touring2003 (as Touring) Note that the features and equipment available in each trim level have evolved over time and may differ between model years. When choosing the right trim level for your Honda Accord, its important to consider your needs and budget. Here are some tips to help you make the best decision: Determine your budget The Honda Accord is available in a range of trim levels, with prices ranging from around \$24,000 to \$36,000. Determine how much you are willing to spend on your new car before you start shopping. Consider your driving habits If you enjoy a more sporty driving experience, the Sport trim level may be a good choice for you, with its more powerful engine and sport-tuned suspension. If you prefer a more comfortable and refined ride, the EX-L or Touring trim levels may be a better fit. Think about your desired features Make a list of the features that are most important to you, such as a power moonroof, a premium audio system, or advanced safety features. This will help you narrow down which trim level is the best fit for you. Test drive multiple trim levels If youre still unsure which trim level is right for you, try test driving multiple versions of the Accord to get a feel for the differences between them. This will give you a better sense of which features are worth the extra cost and which ones you can live without. Dont forget about resale value Keep in mind that the trim level you choose can affect the resale value of your car. Higher trim levels generally have a higher resale value, so if you plan on selling your Accord in the future, it may be worth investing in a higher trim level. The 2024 Honda Accord returns this year with a complete redesign. To simplify things this time, Honda only offers two trim levels for its gas models, while hybrid models are available in four different trims. Read on to learn more about one of the best mid-size cars of the year: Honda Accord TrimsThe two trim options for gas-powered models arent drastically different, but its worth looking at the differences. But if you are shelling out the money for a hybrid this year, you'll find you'll have more options. Heres a breakdown of each trims standard offerings to determine if its the best bang for your buck.LXThe 2024 Honda Accord LX is the cheapest option, with a starting MSRP of \$27,895. Even though its the cheapest, it has many standard features that some sedans lack, such as a 10-inch digital gauge cluster and proximity keyless entry. The infotainment system features a 7-inch touchscreen, four-speaker audio, Bluetooth, Android Auto, and Apple CarPlay. Theres also a multi-angle rearview camera, automatic climate control, and more.The Accord LX is equipped with a 1.5-liter turbo four-cylinder engine, which produces 192 horsepower and 192 lbs.-ft. of torque. It gets 30 mpg in the city and 38 mpg on the highway. It has one of the best EPA fuel economy ratings on a non-hybrid vehicle. Along with the features above, the Accord LX has plenty of other things that make a daily drive much more enjoyable and safe! Forward collision warning, road departure mitigation, automatic emergency braking, lane-keeping assist, and traffic sign recognition are all offered. On top of this, theres adaptive cruise control and driver drowsiness monitoring.EXStarting at \$29,910, the EX adds power-adjustable heated front seats and split-folding rear seats. The audio system is upgraded to an eight-speaker one and dual-zone climate control is standard as well. Added safety features are blind-spot monitoring and rear cross-traffic alert.To top things off, quite literally, theres a standard moonroof.SportThe 2024 Honda Accord Sport features a hybrid powertrain with a 2.0-liter four-cylinder engine and two electric motors that generate a combined total of 204 horsepower and 247 lb-ft of torque. If you are looking to save on gas, this option will give you up to 46 mpg in the city and 41 mpg on the highway.Manual transmissions are no longer offered for this or any other Accord model. The Accord Sport also has many small adjustments that are meant to fine-tune the cars driving performance. The entire trim sits on 19-inch wheels instead of 17 inches. Furthermore, it introduces LED daytime running lights, rather than halogen.Cloth seating comes standard, along with a power-adjustable drivers seat and split-folding rear seats. The infotainment system is larger than that of any of the gas-powered models. It measures 12.3 inches. Meanwhile, the eight-speaker audio system from the EX model carries over here. The moonroof, dual-zone climate control and proximity keyless entry carry over as well.The gauge cluster is a 10.2-inch digital one that is pretty impressive. Apple CarPlay and Android Auto work wirelessly and the vehicle includes a Wi-Fi hotspot as well. As for safety, you'll get a ton of standard features that include most of what is offered in the LX and EX trims.Get this trim starting at \$32,195. At an additional cost, you can also get add-ons like wireless device charging is available for \$350, or an automatic-dimming rearview mirror and universal garage door opener for \$305. EX-LThe MSRP starts at \$33,840. The Accord EX-L offers superior fuel economy compared to all other Accord trims, with up to 51 mpg in the city and 44 mpg on the highway.The Accord EX-L trim gains 17-inch wheels, front and rear parking sensors, and two additional USB ports in the back seats. The seats have real leather upholstery, and the front seats are heated. The passenger seat is upgraded to a four-way power-adjustable seat.Options for the sport model carry over to this trim.Sport-LThe Sport-L trim starts at \$34,175. It retains the 19-inch wheels from the Sport trim but has all the other additions from the EX-L model, with the exception of the rear parking sensors.TouringFinally, the 2024 Honda Accord Touring is the top-tier trim. It has a starting MSRP of \$38,190 and offers a number of extra features in addition to those of the Sport-L trim. Music lovers will especially appreciate the 12-speaker audio system and HD radio. Other luxury features include heated rear seats, ventilated front seats, wireless device charging, and a heads-up display.On top of this, front and rear parking sensors and rain-sensing windshield wipers are additional features of convenience.If you are looking for a comfortable and stellar-performing midsize car, you cant go wrong with the 2024 Honda Civic.
