The substance is an extended version of the famous game "Metal Gear Solid 2", released by Konami on many platforms including PS2. Not only does it have the old style of play, but this version also updates 300 challenging missions and new features that are VR "Special", with four Sneaking modes, Weapon, First Person View, and Variety. In addition to VR, you can challenge yourself in Bomb Disposal, Photograph, Hold Up and Elimination mode. With the context still the same as in the main part and the plot is too verbose, all you need to know is to complete the tasks assigned. With costume options for characters will be unlocked after completing some tasks. InPS2 version, there is a mini-game of skateboard that allows players to control Snake or Raiden to complete assignments such as collecting dog labels or destroy Big Shell within the time limit.
