Streaming services have gone viral in the past years. Almost every household is subscribed to a streaming service these days. For some, they like the cheap price it offers and for others the convenience. They're not wrong - streaming services can really substitute a cable subscription especially for younger people since they don't even watch the majority of the cable channels. For these reasons, streaming services such as Netflix, Hulu, and Disney+ are some of the world's most popular streaming platforms. However, for a lot of people, they can't afford the subscription for these ones. That's where Hotstar Mod APK all unlocked comes in. This free, functional and all-inclusive streaming platform is the one to watch out for. Excited to know more? Dig in! Similar apps: Live Net TV APK India's Top Streaming Platform India's population is very big. There's a lot of people subscribing to these popular streaming platforms more than ever. However, not all can do so. That's why with Hotstar, they can freely have domestic and foreign content rolled into one! This is the ultimate Netflix-killer in this country. Even if you're not from India but you still love Bollywood and Hollywood movies, Hotstar's got your back! This awesome app was released in 2015 and has been the number one source of entertainment for many Indians. With over 100 million downloads in Google Play Store alone, it's clear that this isn't just some knock-off app designed to compete with the big ones. One of the most key features of Hotstar is that it supports multi-language content. Unlike most of its western counterparts which only mostly releases movies and shows from their side - Hotstar isn't like that. Hotstar offers over 1 00 thousand hours of movies and shows from all over the globe for everyone to enjoy! There are 3 categories you can choose from in this app: TV shows, movies and sports. However, it goes even deeper than that because each of these has even smaller subcategories for you to choose from! But even if you're not fond of local movies, you can still enjoy this hot streaming app as it offers your mainstream movies and shows such as Marvel movies, Star Wars and more. Overall, this is an all-inclusive app that caters to almost every one and every age and gender wherever you live in the world. You can't ever go wrong in downloading this awesome app! We all know that streaming platforms are the next generation cable tv. More and more people want to consume content on demand - which gives birth to these streaming platforms. Hotstar is one of these awesome streaming apps that continues to give people the streaming service they deserve. With that being said, here are the features of Hotstar: Movies - People love movies. Ever since the camera has been invented, human curiosity came a long way from making black and white cinematic content. Today, there are hundreds of thousands of movies made worldwide. Hotstar knows that people love movies of all genres that's why they have a wide collection of these. In this app, you can enjoy Hollywood movies, Bollywood, and Vernacular movies as well! There are literally thousands of movies to choose from ranging from horror to comedy. There's no shortage of movies in here and they make sure to update it with the recently released ones always. TV shows - Sometimes, we get bored or we can't get enough of movies. In that case, a tv show/series may just be what you're looking for. These shows typically lasts for 13 or more episode and each episode typically runs for an hour. Shows are what most people watch on cable tv the most back when streaming platforms weren't as popular as they are today. But in this day and age, people simply can't wait another week or a day just to watch an episode. They want to be able to watch when they want it instantly. That's why streaming services paved the way to this instant gratification and Hotstar has tons of shows to offer you. From mainstream Hollywood ones to Hindi shows, they've got your back! Sports - For sports lovers, Hotstar is the one for you. As a cheaper alternative to cable subscription, Hotstar puts most cable services to shame with their awesome content library. You can watch almost all the sporting events in here such as World Cup, Indian Super League and more! There are also other minor cups and sporting events that only you can watch on Hotstar! High-quality videos - There are a lot of streaming platforms that are trying to compete with the likes of Netflix and Hulu. However, none of them can even come close. Hotstar is different in that it offers more content than most streaming apps all in high-quality videos! You'll enjoy your favorite movies and shows in all of its glorious high-resolution quality! You don't need to suffer anymore with pirated content or videos from YouTube just to be entertained. Download videos - Before streaming platforms, people used to download movies and shows off torrents like crazy. However, this is illegal and not a lot of people knows how to do it. And most of all, you're lucky if you can download high-quality videos early on in torrents. With Hotstar, you can download all your favorite videos to watch later right on the app! You don't need to use torrenting apps or any third-party apps just to have some videos to watch later! No login required - Another annoying thing about most streaming platforms is that it requires you to create an account even for a free trial! This is quite burdensome for most as they don't even want to put confidential info for some streaming platform. However, the great thing about Hotstar is that you don't have to create an account or log in to enjoy watching videos! Watch Hotstar originals - If you want to watch more than just the mainstream movies or shows, you're in luck because Hotstar also produces originals right on the app! You can enjoy content that you can't find elsewhere! Kids content - The challenge for most parents is finding a streaming app that's suitable for their kids. With Hotstar, this wouldn't be a problem as they offer all the Disney shows and movies you can watch! You can even use the kids mode to only allow kid-friendly content to be seen by your kids! Hotstar Mod APK free ipl - Premium/Vip unlocked - New version 2021 Hotstar costs some money for a monthly subscription.
