While the summary of Number the Stars chapters can give you information about history, they cannot touch the experience of reading the book. Lois Lowry has great skill in creating memorable characters that are quite credible, making episodes in the book more intense. The number of stars is a story that focuses on a family in Denmark which is determined to help a Jewish family achieve security while under Nazi occupation. The Johansen family helps the Rosen family by taking their daughter, Ellen. Related articles The reader takes the prospect of a 10 year old, Annemarie Johansen, who demonstrates deep friendship with Ellen. Although Annemarie is not the narrator, the reader looks at dark events through his eyes. The book opens with a scene in the streets of Copenhagen where three girls Ellen Rosen, Annemarie Johansen and her younger sister, Kirsti. Two German soldiers stop the girls, and warn them not to run. The girls reach Johansens' apartment to find Mrs. Johansen and Mrs. Rosen talk. The food is poor because of ration, and the girls are hungry. They have to take a new route to school from now on. The next chapter brings readers into the fairytale world, while Annemarie begins to tell Kirsti a night story about kings and queens. Annemarie's thoughts go to her older sister, Lise, who died in an accident a few years ago. Lise's boyfriend, Peter Nielsen, is still unpublished and remarkably serioushis young age. The chapter paints a dark picture that parallels a dark fairy tale itself. Kirsti loses a button from her coat, and goes to a local store owned by a Jewish family to have the coatThe girls find that the shop is closed, and a sign written in German is in the window. Peter explains that many shops owned by Jewish families are closed. Annemarie cares about the Rosens. The Nazis have created a list of Jews in Denmark, and they can come and take them away. Annemarie's family decides to take Ellen and pretend to be one of their own. Ellen's parents are hiding. Soldiers search Johansens' apartment, asking for the whereabouts of the Rosen family. They're questioning the family. They wonder why Ellen has dark hair while the other girls are blondes. Mr. Johansen shows photos of his daughters' soldiers; Lise's hair was dark. Annemarie realizes that her father sometimes speaks in code to keep the family safe, and to keep the girls from getting scared. Mrs. Johansen takes the three girls to Gilleleje, and stops at the house where she grew up during the trip. The fourth visits Uncle Henrik, who lives by the ocean. Annamarie tells Ellen that she hid her Star of David necklace in a safe place until it is safe for her to wear it again. Henrik tells Annemarie that the great Aunt Bertie is dead, and a funeral will be held at home. Annemarie knows there's no Bertie, but she doesn't say anything. Annemarie confronts Uncle Henrik about the existence of great Aunt Bertie. Henrik explains that sometimes it's easier to be brave when you don't know everything. The family continues to prepare for the vision of the mock. The phrase "number the stars" is introduced into this chapter during a mock mourning ceremony for the fictitious aunt. The soldiers arrive, asking to know why there are so many people in the house, and why the coffin is not open. Mrs. Johansen says that maybe the coffin should be opened even if her aunt died of typhus. The soldiers leave without opening the coffin, but not before striking Mrs. Johansen for her sarcastic remark. Peter reads a psalm which contains the phrase, "who numbered the stars one by one." Numbers summaries of the stars of the first ten chapters should be enough to inspire you to read the story, and encourage children to read it as well. You can find additional summaries, as well as details on each chapter on Spark Notes. It is a common knowledge that books tend to be much better than the movies they inspire. Chapter summaries can tell you a story, but they can't tell you the whole story. Lowry's mastery of fiction immerses the reader in the book. Mom and Uncle Henrik I use the language of the code to discuss their resistance activities, similar to the language that Pope used on the phone previously in the novel. Annemarie is able to understand that they are speaking in the code because it is observing and intelligent. She has always been interested in her family history of her and the world of her around her, so she is known in what mother and uncle Henrik tell each other about great aunt bird. While Annemarie figure these little mysteries, Lowry shows the character you mature. Annemarie is becoming more and more aware of what is happening around her, but she knows to keep this information to herself. Chapter 9SummaryAfter Dinner, Annemarie comes out of the barn alone to ask Uncle Henrik on Great-aunt Birte. She is angry that she lied to her, but Uncle Henrik explains that he lied just because it will be easier for annemariums to be brave if she doesn't know everything. At the beginning, Annemarie does not understand him, but then think of the day she and Ellen were stopped by the German soldier as he returned home from school. It would have been more difficult for Annemarie to answer the questions of the soldier if she had known at that moment that the Germans wanted to take away the Jews. After thinking about this, you realize that Uncle Henrik and her mother are trying to protect her. That night, a chariot offers a great auntCasket. Many strangers arrive shortly after and sit silently in the living room. Mom tells the girls that these people came to cry Great-aunt Birto, but Annemarie knows that this is not true. Ellen, on the other hand, still thinks that Breast-aunt Birto is a real person and is very sad that Johansens lost a relative. Annemarie means Ellen truth, but she remembers what Uncle Henrik said and she realizes that she will be easier for Ellen being brave if she doesn't know. After a few hours, Uncle Henrik asks Ellen to go out with him. A few minutes later, they return to Pietro Neilsen and Mr. and Mrs. Rosen. Analysisin Chapter 8, Annemarie assumes Ellen's responsibility promising to keep her serious necklace. In chapter 9, Annemarie again protects Ellen deciding not to tell her about her friend that adults are lying on Great-aunt Birte. Annemarie knows what to tell Ellen the truth will make her feel better because he would set the weight of this secret. However, you also know that things will be easier in the long term for Ellen if you don't know the truth. The fact that Annemarium is able to give the priority of the greatest good for the short-term relief that is growing. Hangle Henrik tells Annemarie that he is not the only one who does not know the whole story. He explains that he too and mother is just said what they need to know. This is a historically accurate portrait of how Danish resistance works. Danes who were actively resisting the Germans knew only what they needed to know to do their job, so if they were captured, they would not be able to tell the main secrets of the Germans. In this way, a person's capture would not have overturned the entire resistance movement. Chapter 10 Summaryonce Everyone arrived, Uncle Henrik says it's time for him to leave. He leaves through the front door. Shortly thereafter, a German soldier knocks and asks to know why so many people gathered at home. Mama explains that they are keeping a vigil for his great Aunt Birte. However, you offer to open it anyway if the officer wants to take a look. He slammed the mother and the soldiers leave. Textile and mom worrying that the soldiers are listening even after they left the house. To keep the claim a funeral, Peter chooses a casual psalm from the Bible and reads aloud. This is the Lord to bring together the people of Israel and heal their wounds. All listen solemnly. After a few minutes, Pietro closes the Bible and tells everyone, it's time to leave. Of the number the stars comes from Psalm 147: 4, which Peter reads aloud in this chapter. In the psalm, God can number the stars stars For someone who shows he knows everything. The Psalm is intended to comfort people in times of difficulty by showing them that God is always watching and they are not alone. The Psalm also describes how God gathered the people of Israel ... that is, the Jews - after they were persecuted and helped them rebuild. This parallels the way Jewish Holocaust survivors had to rebuild their lives after World War II. II.
