B&K Precision Model 1550 is a compact 108W power supply delivering 1 - 36V and 0 - 3A from its main isolated output. A unique feature is the USB charging port located on the front panel, enabling the user to charge a cell phone or MP3 player. Clean power and quiet operation make the 1550 an appropriate choice in meeting the the constraints on available bench space in laboratories, workshops and schools. The rear panel design incorporates a security loop to secure the power supply to a workstation, so as to prevent unwanted removal.Our B&K Precision bench power supplies include the 1671A (817-2226), 1687B (817-2229), 9120A (817-2213) & 9130 (817-2217). Users of our B&K Precision bench power supplies may also be interested in our B&K Precision electronic loads: 8500 (817-2204), 8502 (817-2207), 8510 (817-2201), 8512 (817-2223) & 8540 (817-2210).USB charging port on front panelRear panel security loopCompact design - dimensions 70 x 150 x 250 mm, weight 2kgOutput On/Off controlLarge, bright easy-to-read LCD displayConstant voltage and constant current operationOvervoltage protectionSupplied withpower cord, user manualBK Precision Switching DC Power SupplyThe BK Precision 108W analogue switching DC power supply has an output voltage rating of 1V to 36V and a current rating of 0A to 3A from its main isolated output. The clean power and quiet operation make this power supply ideal for any application with limited bench space.
