SavePin: The Ultimate Solution for Downloading Pinterest Videos and Photos Are you fed up with wasting hours on Pinterest, only to be let down by the lack of a download option for your favorite videos and photos? Look no further than SavePin, the most popular Pinterest video downloader. With SavePin, you can easily convert Pinterest GIFs, videos, and images into MP4 format. SavePin is designed to help you save your favorite content from Pinterest with ease. Whether it's a beautiful image or an interesting video, SavePin allows you to download it in just a few clicks. The tool also offers high-quality resolutions, including 720p and 360p options, so you can choose the best quality for your needs. One of the standout features of SavePin is its speed and ease of use. You can copy and paste the URL of the video you want to download, and then hit "Download" in just a few seconds. The tool also supports multiple operating systems, including Windows, macOS, Android, iOS, and web browsers like Chrome, Firefox, and Safari. With SavePin, you can enjoy your favorite Pinterest videos on any device, at any time. The tool is completely safe, secure, and compatible with all devices. Plus, it offers an impressive 99.9% success rate for downloads, which means you'll rarely encounter any issues. SavePin is a user-friendly online tool that enables you to easily convert Pinterest videos to MP4. With our platform, you can download your desired video at any time without needing to install any software or create an account. Simply visit our website, copy the link of the public Pinterest video you want to download, paste it into our input field, and click "Download" to instantly save the video on your device. We do not impose any limitations on the number of videos you can download. Our tool is completely free to use and works seamlessly across all browsers. You can access SavePin on your mobile devices, including phones and tablets, to download Pinterest videos. We support downloading individual videos, images, and reels in MP4 format. However, we currently do not support downloading entire boards or collections, although we are planning to add this feature by the end of the year. SavePin allows you to preview the video on Pinterest before downloading it and supports downloading both images and GIFs from the platform. Additionally, our tool enables you to download videos in the highest quality available on Pinterest. We do not track your downloads or collect any personal information; instead, we use cookies to improve your user experience. Our website does not require any personal information and does not install software on your device. You can find our app, Video Downloader for Pinterest, on the Google Play Store with over 50,000 downloads and a 4.7 rating.
