This breathtaking game mixes tycoon-style park management with electrifying dino-on-dino battles, starring characters and critters from the blockbuster movie. We love tinkering with our dinosaur DNA to evolve our thunder lizards into more powerful specimens while also expanding our dream park's high-tech facilities. When it comes time to test your dinosaurs' mettle in the arena, strength and strategy are the keys to prehistoric pugilist victories. And luckily, the Indominus rex stays inside her cage. For now, This Game Is The Spotlight of my life I've watched GamingBeaver Play it and he had max every allowance but cash and I was like oh so this game is pretty easy to get allowance and it has a lot of great graphics! I downloaded it did the tutorial and got farther in and got Dino's that needed over 100 bucks to skip and they were just rares! And I've been raging on a battle a while ago and I could never beat it but I finally did and I also beatd battle 20 and got the T. rex but I had to use my best dino and it took hours for it to be free! I got the legendary T. rex also did I say that it's really hard to get allowance in the beginning? Anyway let's continue I got the legendary T. rex and it needed 2 days to finish? AND I BEATED IT WITH A FREAKIN ALANGASOURAS and. It needed over 600 bucks to skip! A lot of people rage about this. Also the indoraptor needs half the raptor dna you need to get it also may you please make all the T. rex related carnivores not have the same aggression animation? Also roar? I also rage about the card packs like why can't they just take an hour to get another one? Also I don't get why there's some battles with Dino's that are over level 40 and even 100 also every time I try to tap on that virtual dino thing that u can upgrade crash me when I tap it? Please Add Some Things I've Featured Its A Great Game I Play It every single daySincerely your Biggest fan Tyler Thanks for rating our app, JurassicWorldLudiaLover. We appreciate you taking the time to give us a review and providing feedback on areas we could improve. We will pass along your suggestions to our Development team for them to review. This game is the best game on the App Store, no doubt about it. There is not really too much negative stuff to be said. This game has amazing graphics and a wide variety of dinosaurs to unlock. They are always constantly making new events where you can unlock new aquatics and Cenozoic creatures. The battles are never too hard(unless your a noob and waste all your action points on blocks) i never have a problem winning the battles unless I don't have the right creatures needed. I am currently level fifty something and my best creature is a lvl 20 erliphosaurus which I won in the recent tournament. Also, people are always complaining about winning rubbish prizes on the spin wheel and in packs, but I have had very good luck with both of these things. In fact, in the last two Cenozoic battle events i won TOURNAMENT CREATURES in the packs which sell for a TON of dna. I have also won legends and I have lost count of the number of Cenozoic and aquatic packs I have won on the pvp wheel. Yes, we all know that the "five players" in pvp are bots for obvious reasons, but at least that means you win more. I really hope you guys add herrerasaurus or deinonychus to the game as tournament creatures or even VIP's. When fallen kingdom comes out I'm also looking forward to the indoraptor coming out as well as the baryonyx. Best game ever thank you Ludia!!👍👍.
