Redmi note 5 pro miui 12 update date in india. How to update redmi note 5 pro to miui 12. How to get miui 12 update in redmi note 5 pro.

Xiaomi launched its first dual-camera phone Redmi Note 5 Pro in India last year running MIUI 9.2 on top of Android 7.1 (Nougat) and later updated it to MIUI 9.5 based on Android 8.1 (Oreo) back in June 2018. The company updated the device to Android 9.0 (Pie) in May 2019, and now the device has started receiving Android 9.0 based MIUI 12 Stable update. MIUI 12 brings all-new design and animations along with new features such as Super Wallpapers, Floating Window, New Control Center, Enhanced Privacy Protection features such as Interceptor, Flare, Hidden Mask Mode and more to the devices, check out this post to learn more about MIUI 12 features. Xiaomi doesn't follow any fixed update frequency for the MIUI Global Stable ROM. This post will help our readers in keeping track of MIUI updates for Redmi Note 5 Pro (codename whyred), also check out our Redmi Note 5 Pro custom ROM reviews, Note that Xiaomi follows staged roll-out, so the updates are randomly pushed to a limited number of users and a broader roll-out usually takes a few days after the company makes sure there are no critical bugs. MIUI updates rolled out for the Redmi Note 5 Pro so far: [Jan 5, 2021]: Xiaomi has started rolling out MIUI 12 Stable update in India. The update comes with version MIUI 12.0.2.0.PEIMIXM and brings November Android security patch. The update weighs 697MBs in size. MIUI 12 brings all-new design and animations along with new features such as Super Wallpapers, Floating Window, New Control Center, Enhanced Privacy Protection features such as Interceptor, Flare, Hidden Mask Mode, and more to the devices, check out this post to learn more about MIUI 12 features. [Download Link] [Sep 23, 2020]: Xiaomi has started rolling out MIUI 11.0.5.0.PEIMIXM with August Android security patch. The update weighs 523MBs in size. [Download Link] [Nov 15, 2019]: Xiaomi has started rolling out MIUI 11.0.3.0.PEIMIXM with November security patch. The update weighs about 544 MBs in size. [Download Link] [Nov 11, 2019]: Xiaomi has suspended the MIUI 11.0.2.0 rollout. [Oct 30, 2019]: Xiaomi has started rolling out MIUI 11 Stable 11.0.2.0.PEIMIXM with October Android security patch to select users. The update weighs around 622MB in size and brings new features such as New Minimalistic Design, Quick Replies, New Dynamic Sound Effects, Redesigned Settings Menu, Mi Share, Floating Calculator, Updated Mi File Manager, Digital Wellbeing and more to the devices, check out this post to learn more about MIUI 11 features. [Aug 15, 2019]: Xiaomi starts rolling out MIUI 10.3.2.0.PEIMIXM with August security patch. The update weighs around 505 MBs in size and brings new left and center alignment options for lock screen clock along with minor bug fixes. [Download Link] [May 31, 2019]: Xiaomi starts rolling out Android 9.0 (Pie) based MIUI Global Stable 10.3.1.0.PEIMIXM with May security patch. The update weighs around 1.6 GBs in size and brings system-wide dark mode along with new charging animation. [Download Link] [May 13, 2019]: Xiaomi starts rolling out MIUI 10.3.1.0 update with April security patch. This 341MB update includes several fixes and also brings face unlock support for App lock. [Download Link] [Mar 29, 2019]: Xiaomi starts rolling out Android 9.0 (Pie) based MIUI Global Beta 9.3.28 with April security patch. The update also brought system-wide dark mode and Game Turbo to the Redmi Note 5 Pro. [Feb 20, 2019]: Xiaomi announced Android 9.0 (Pie) based MIUI Global Beta testing for the devices including Redmi Note 5 Pro, the smartphone is confirmed to get Android Pie update in Q2 2019. [Sep 14, 2018]: Xiaomi started rolling out MIUI 10.0.1.0.OEIMIFH with September security patch, the MIUI 10 update brought major changes like Full-screen gestures, Redesigned Notification Panel, Redesigned Volume Sliders, Improved multitasking management, natural sound system, and a lot more, for more details on MIUI 10 refer to this post. [July 11, 2018]: Xiaomi introduced anti-rollback for multiple devices running Android 8.1 (Oreo) including Redmi Note 5 Pro. [June 28, 2018]: Xiaomi started rolling out MIUI 9.5 .14.0.OEIMIFA with May security patch, the update brought Android 8.1 (Oreo) to the device along with Dual 4G VoLTE, New Notifications Shade, Full-Screen Gestures and updated Mi Video with online content integration. [Jun 11, 2018]: Xiaomi announced MIUI 10 Global Beta testing for various smartphones including Redmi Note 5 Pro. [May 24, 2018]: Xiaomi released Android 8.1 (Oreo) based Kernel Sources for the device. [Mar 9, 2018]: Xiaomi started rolling out MIUI 9.2.5.0.NEIMIEK with February security patch to Redmi Note 5 Pro, the update also fixed the low headset volume issue. [Feb 24, 2018]: Xiaomi announced MIUI Beta testing for devices including Redmi Note 5 Pro; also, a company spokesperson confirmed that Redmi Note 5 Pro will get Android 8.1 (Oreo). [Feb 22, 2018]: Xiaomi started rolling out MIUI 9.2.4.0.NEIMIEK which brought face unlock and significant camera improvements to the device. Spotted a newer software version for this smartphone? Tip us on Twitter! Screenshots via 1. 2 Something went wrong. Wait a moment and try again. The Redmi Note 5/5Pro had the same privilege as the Redmi Note 8 series and got two OS upgrades. But after some time, the support began to dwindle, and at a time, it stopped receiving updates. And after nearly one year later, the device received a stable update to fortify it for the MIUI 12 upgrade. The MIUI 12 update for the Redmi Note 5/5Pro has since been released for a selected few. It's now available for the public, and you should be able to upgrade successfully. The update arrived with a version number, MIUI 12.0.2.0 PEIMIXM, and weighs in at 697MB. From the version number, it's for the global ROM users and is based on Android 9. It brings the features of MIUI 12, bug fixes, and system optimization. Below is the full Changelog:MIUI 12 update for the Redmi Note 5/5Pro ChangelogSystemOptimization: Full screen gestures are now ignored on the Lock screen alarm pageSystem animationsOptimization: Animations in selected scenesControl centerNew: Swipe down from the upper left corner to open Notification shade and from the upper right corner to open Control centerOptimization: Control center is now closed by incoming callsStatus bar, Notification shadeFix: Notification shade wasn't displayed correctly in Dark modeIf you haven't received the MIUI 12 update for the Redmi Note 5/5Pro, head over to the updater app and click on "check for update." And since the update has been released for everyone, you can follow the link below and download the recovery ROM. You'll successfully flash the ROM using the recovery method.Also read: Android apps to convert YouTube content to MP3 for free on Android phonesDownload MIUI 12 update for the Redmi Note 5/5ProDevice Name: Redmi Note 5Version: MIUI 12.0.2.0 PEIMIXMCodename: whyredType: StableRegion: GlobalAndroid version: 9Download link: Recovery | OTA (Apply from v11.0.3.0) | Fastboot Note: All files listed here are official untouched MIUI ROMs. It's not owned, modified or edited by Xiaomi Firmware Updater. Just for a refresher, the Redmi Note 5 Pro launched in 2018 and while Xiaomi doesn't really offer too many software updates to older phones, still managed to get the MIUI 12 update. The phone comes in with an all-metal build which is sturdy and feels great in the hand. There is a 5.9-inch Full HD+ display upfront with Gorilla Glass protection. It is powered by the Qualcomm Snapdragon 636 SoC with up to 6GB of RAM and 64GB internal storage. The phone already has the new MIUI 12 update pushed which is based on Android 9 with a planned Android 10 update. Giving the phone a new lease on life. Moving to the optics, there is a dual rear camera setup with a main 12-megapixel sensor which is assisted by a 5-megapixel depth sensor, while we get to see a 20-megapixel selfie shooter upfront. The phone performed well in all major areas given its price. Xiaomi announced the availability of MIUI 12 for Note 5 Pro for the Indian market and we will guide you through the whole manual installation process if you haven't received the OTA yet. The method we will be following here is the manual installation which is using the updater app. The process is simple, risk-free and you don't need to unlock the bootloader or flash the ROM using a custom recovery. MIUI 12 update on Redmi Note 5 Pro We would strongly recommend sticking to the instructions mentioned line by line, so you don't end up with a bricked smartphone. Requirements You need to download the MIUI 12 files from here. Make sure the device is at least 60% charged. Backup all the important data as the process will fully reset the phone. Procedure to install MIUI 12 using Recovery Method (Updater app) Download and transfer the MIUI 12 file into the internal storage of your phone. Make sure the battery is charged above 60%. Now on your phone, open the Settings app, and pull up the updater page. Tap on Menu (three dots) in the top right corner and select the Choose update package option. If you don't see the option of choose package, tap multiple times on the MIUI 11 logo and it should work now. After getting into the Choose update package option, Select the MIUI 12 zip file and tap on OK. The phone should now initialize the package and start the flashing process. Post the initialization, you should see the phone reboot. The first boot can take some time so don't panic. If you have followed the above-mentioned steps accurately, your phone should boot with the latest MIUI 12 update. This new MIUI 12 update brings all-new design and animations along with new features such as Super Wallpapers, Floating Window, New Control Center, Enhanced Privacy Protection features such as Interceptor, Flare, Hidden Mask Mode, and more.
