Sentence of prostrate

Hi everyone: I understand that the word is $\hat{A} \in \hat{a}, \neg \hat{A}$ "has been protected" works both as an adjective and as a verb. So, I don't know if I used the word correctly in the borrowed phrase? While the stairs descended, I lost a step and caddei Prostrati down the stairs. Source: I myself thanks is grammatical, but being prostrate requires horizontal and it is difficult to do it on a staircase. A mother tongue would be more inclined to say something similar to "... fell head-first down For the stairs ". Is grammatical, but be prostrate requires horizontal and it is difficult to do it on a staircase. A mother tongue would be more inclined to say something similar to" ... fell head-first down to the stairs ". This is what I had in mind when I wrote that phrase: and actually, the caption over the image says: $\hat{A} \in \hat{a}, \neg$ "adult male prostrated from a fall poses on the floor. $\hat{A} \in \hat{a}, \neg$ last modification: 20 January 2019 This is what I had in mind when writing that phrase: and in real Tü, the caption above the image says: $\hat{A} \in \hat{a}, \neg$ "Even the male prostrated from a fall lay on the floor." He fell to his head-to-date down the stairs and finished for prostrate on the floor. He fell to his head-to-date down the stairs and finished for prostrates on the floor. Yes, being prostrated is the final result, not an ongoing action. So you can't fall prostrate down the stairs. You can only be prostrated once you arrive at the bottom. As the formulation in that caption supports. Here are two adjective definitions from WR: ADJ. Lying exposed, to show the presentation or adoration. helpless; Exhausted: a country left prostrated by natural disasters if you think the definition 2 extends to a man at the bottom of a ladder you can use the word. Otherwise, you probably need to choose a different word, because the definition 1 does not cover that situation (without much stretching). Last modified: January 20, 2019 $\hat{A} \in \hat{a}, \neg \hat{A} \in \hat{a}, \neg \hat{A} \in \hat{a}, \neg \hat{A} \in \hat{a}, \neg$ "Adult male prostrated from a fall lay on the floor. $\hat{A} \hat{A} \rangle \hat{A} \in \hat{a}, \neg$ "male adult [who is now] Prostrato due to a fall Lays is on the floor. "He fell each - first down the stairs and ended up on the floor. He didn't do $\hat{A} \in \hat{a}, \neg \hat{a}$ "do prostrate", even if it ended that way. He fell down to the stairs. As a verb, the word is almost always used in the "prostrate" form, usually of Front someone or something as a sign of respect or reverence. Thank you very much, guys. So, even this slide should be wrong. Yes, and Romania requires a capital "R". And both prone and prostrate mean $\hat{A} \in \hat{a}, \neg \hat{A}$ «Flat ... $\hat{A}$ " $\in$, but one means addressing, the other face in down. Whoops! You're right. $\hat{A}$ supine that means facing upwards, unlike inclines that means facing downwards. $S\hat{A} \neg$, that slide is wrong. I don't see a grammatical problem with the "prostrate" has been used in the original post, but it is not the way people really describe that situation except perhaps in a scientific context. Normally we would call that one position "face in down". No, I was referring to the use of "prostrate" in the diaopositiv $\hat{A}$: He was wounded by falling prostrate along the mountain. This seems really strange in terms of mountains, of which we have many here and where victims never keep such a position. Does this indicate to use prostrate in a sentence?
