Directions to the interstate

The RAC Route Planner app is designed to help you plan the best route for your cross-country road trip. With its advanced features, you can optimize your journey by avoiding traffic congestion and choosing scenic routes. The app provides step-by-step driving directions, as well as real-time traffic updates to ensure a smooth ride. Additionally, the RAC Route Planner allows you to: * Find hotels, garages, and car dealerships along your route * Get weather information for the UK to plan your journey accordingly * Use Traffic News to identify traffic jams and issues on your planned route * Calculate your business mileage and CO2 emissions with the Mileage Calculator tool The app also integrates with the myRAC app, allowing you to find the cheapest local fuel and save money on all your journeys. Overall, the RAC Route Planner is a comprehensive tool that helps drivers plan their routes, avoid traffic, and stay informed about driving conditions. It's just one of the many ways the RAC supports motorists across the UK. Get top-rated car insurance for temporary, learner drivers, or black box policies. Need a service or repair? Our new mobile mechanics come to you at home or work - no more garage hassle! We also offer help finding a new car through RAC Cars. For international trips, check out European breakdown cover, travel insurance, and travel accessories from the RAC Shop.
