Chernobylite pre alpha demo

ChernobyliteLogo by ChernobyliteSviluppo(i)The farm 51Editore(s)All in! SAEngine Engine 4Platform(s)Microsoft WindowsPlayStation 4PlayStation 5Xbox OneXbox Series X/SRelease2021 JulyGenre(s)SurvivalMode(s)Single-player Chernobylite is a next video game The game is set in the Chernobyl exclusion zone, where the player's goal is to explore and find their significant other in the land of radioactive waste. Gambling The player plays as a physicist, formerly employed at Chernobyl Nuclear Plant who suffers from the loss of their loved one in Chernobyl Disaster 30 years ago and returns to the disaster zone to seek their partner. [1] Most single-player gameplay revolves around exploration of the exclusion zone, collecting supplies and tools during the meeting "Stalkers" and hostile military personnel. The player is also forced to make decisions affecting the non-linear history line. There is also a handicraft system, which allows the player to realize their own equipment and weapons. [2] Any character can die and any task can be failed. [3] In the depths of the contaminated environment there are also strange supernatural threats, because of the "chernobylite" created by the nuclear afterlife. [4] Development Chernobylite is developing from The Farm 51. The game map was developed by 3D scans and recreations of the gameExclusion zone in Ukraine. [4] Agriturismo 51 started a crowdfunding Kickstarter campaign to help finance further developments. The funds were called necessary to complete the 3D scanning process. On May 11, 2019, Kickstarter's campaign ended by overcoming the funding target of \$100,000 and increasing \$206.671 in total by 3.350 supporters. The game included the Steam and GOG.com early access programs on October 19, 2019 and is set to release fully in 2021 for Microsoft Windows, PlayStation 4, PlayStation 5, Xbox One and Xbox X/S of All In! Games.[5] References "Chernobylite Is A Game Where You must Find Your Girlfriend In The Radioactive Wasteland". Gamebyte. 2019-02-11. Retrieved 13 May 2019.
