Volendrung is perfect for the roleplaying aspect of the build, but it is not boosted by smithing perks, so you may want to switch to something more hard hitting at times.Á Á The idea about the no healing is to stop you from switching out your weapon constantly. The Old Orc then embarks on quests to seek adventure before his end, and eventually leading to a Good Death. Wearing Orcish armor to start is great for appearances and roleplay. I will add some battle strategies I used to stay alive soon, as I am trying to come up with more. ***This is of course "end game" equipment. Barbarian 5/5, Skull Crusher 3/3, Champion's Stance, Great Critical Charge, Devastating Blow, Sweep, Warmaster Heavy Armor:Á ÁProtection from enemy attacks will be important here. The Old Orc After running into The Old Orc in Skyrim, I wanted to explore the lore and history of the Orcs. Let it be for Prince Malacath. If Orcs break this code, then a "blood price" is paid, in which blood is spilled until the one offended is satisfied. Race: Orc Guardian Stones:Á ÁWarrior, Lady, Lord, Steed Dragon Shouts: Disarm -Á ÁShout and roar with such ferocity, your enemy drops his weapon in fear. Hardcore, right? That is the point. Badass. Orcs are known for their superior smithing, and also for using Ebony armor.Á Á ***I also enchant clothes with smithing enchants. Tribes will not accept me. Honor is not won through trickery. There is no honor in that. I know, this is tough. Orcish tribes follow a chief, who is the sole leader and only one allowed to have wives. We are aiming for Orcish and Ebony armors to keep with the roleplay. You can accept temporary help if someone asks you, but don't ask anyone to follow you. Roleplay No healing. bad for arthritis. Steel, Arcan, Nano, Orciso, Ebano, Dedric, Dragon Block:Á ÁBash, deadly bash, disarming bash ... Nobody wants an old, downcast Orc. For this construction, I take on the role of an Orc past its first. Whirlwind Sprint -Á You may be old, but your strength is not the same as your age. I had some advantages, so it was fun to experience the ridiculous power of a dragon-bone hammer. Then again, there seem to be some who disagree with what had happened in the legends, and even Malacath says that a certain story Á" too "literal".Á The orca culture Á is centered on the cult of Prince Malacath (who actually he is not recognized as prince-hedric by other princes, who fits his role as "prince of the Outcasts"). Enchanting armor and hammers offer the most powerful! of equipment. You won't wear heavy armor while you work...
