I can't create an account to play the game, please fix by MattMeyer on 2021/06/09 14:12 Hello, As much as I like playing this game there's this glitch that happens when logging in. You type in your account details as normal, but when it loads, in the background the screen is loaded but the loading screen is glitched on there. Please fix this! by Blitzel092 on 2021/06/08 03:06 The game is way too pay to win, the game does a dumb bug tat doesn't load your character and you're forced to wait hours to let you in and once your allowed in, it does it again If those two things were fixed then it would be a easy 5-star by Bj9943-) on 2021/06/06 22:09 When I tried making a new account I wasn't able to actually make it. Please fix this! by I_Am-TechySheriff5 on 2017/07/29 21:53 I played Helmet Heroes on PC and it was really fun. The thing that made my day at PC was the shortcuts. The letter shortcuts for skills and the dash+m combo made combat and traveling so much easier. When the mobile version came out, I was really surprised that there isn't the shortcuts button or at least control customization settings anywhere. My request is to basically add those shortcuts to the mobile version like the skills shortcuts is the small icons (I recommend pictures of the skill) and there's the dash+m icon somewhere. Don't forget about your charge button and energy release button. Even if you don't make the changes, I still think this is a great game. by martae ova est on 2019/08/14 08:22 It's a good game To play been playing for years idk why server 4 was removed Nd all but overall good game most players stop playing cause its not fun how it was y'all should add things to the game like we should pay 500k-1m to change our name and If we hit this lvl we get this much money and stuff if you complete this or what every u get tickets make the game so people would wanna play still yanno oh and also like for og players we should get a reward like players who played about 1-2-3 years get something og or some and add challenges to the game so we have something to do grinding get boring after an hour or 2 pls and thank you :D by Winston Mi on 2018/07/09 06:36 Love the game been playing since it was released on armorgames, wanted to play on my phone and really enjoyed it.
