Security Incident Reporting Form

☐ Check box if no incidents to report and complete contact information section only.

Date Submitted: _____

Instructions: To enhance mutual support, [Texas Administrative Code \(TAC\) 202.76 Security Incidents](#) requires institutions of higher education to provide timely reporting of security incidents to the [Texas Department of Information Resources \(DIR\)](#) through the Information Security Officer (ISO). Each system administrator is responsible for assessing the significance of a security incident within their department and for submitting this report to the ISO based on the potential business impact on affected resources and the current or potential technical effect of the incident (e.g., loss of revenue, productivity, access to services, reputation, unauthorized disclosure of confidential information, or propagation to other networks). Please use the following form to document all relevant security incident information.

Depending on the criticality of the incident, it may not always be feasible to gather all the information prior to reporting the incident to the ISO. In such cases, make an initial report and then continue to report information to the ISO as it is collected. All security incident reports provided to the ISO in response to [TAC 202.76](#) requirements will be classified and handled as confidential per Texas Government Code Chapters [2059.055 Restricted Information](#) and [552.139 Exemption: Confidentiality of Government Information Related To Security or Infrastructure Issues For Computers](#).

If criminal action is suspected, (e.g., violations of Penal Codes [Chapter 33 Computer Crimes](#), or [Chapter 33A Telecommunications Crimes](#)), the ISO is also responsible for contacting the appropriate law enforcement and investigative authorities.

Applications from representatives must be supported by documentary proof of representation. Payments made by cheque or money order must be payable to the Commissioner of Police. Report a crash Application requesting the Commissioner of Police to sell an impounded vehicle If your vehicle has been impounded for an unauthorised driving offence, you will incur daily costs until the vehicle is collected. These applications do not apply to reckless driving offences. If the vehicle is not collected at the conclusion of the impoundment period, daily costs will continue to accumulate until the Commissioner of Police has the authority to dispose of the uncollected vehicle. The driver responsible for the impounding offence will further be liable to pay the cost associated with disposing of that vehicle. If the responsible person for a vehicle used in the commission of an unauthorised impounding offence has no intention of collecting the vehicle at the conclusion of the impoundment period, an application can be made to the Commissioner of Police in accordance with section 80JA of the Road Traffic Amendment Act 1974 to dispose of the vehicle early. An application requesting the Commissioner of Police to sell an impounded vehicle can only be made once 48 hours has passed since the vehicle has been impounded. All parties with an interest in the vehicle must agree and sign the application form and the responsible person must complete the statutory declaration portion on the form. The proceeds from the sale of the vehicle are to pay for expenses incurred by WA Police. If there are any funds remaining, this will be distributed to the interested parties based on their percentage of interest as allocated on the application form. If the originating impounding charge is withdrawn or dismissed after the vehicle has been sold, the sale cost will be paid back to the interested parties based on their percentage of interest. An application form authorising the Commissioner to dispose of an impounded vehicle early can be downloaded from this website or obtained from any police station.
