Ffxiv alt leveling guide 2019

10-25-2019 01:31 AM #1 Hello everyone. I recently got my DRK to 72 with 99% of that time spent leveling making roulette, it was not the fastest thing in the world, but I wasn't in a huge race, but now with 5.1 around the corner I need hustle if I plan to get my DRK to 80 before Tuesday and have time to practice my rotation. I searched for some guides, but they were all around the release of Shb and probably lack some information since they were released two or three days from the launch, so I am coming here in hope that someone could help me or send me to an older thread on the same subject to avoid intaxing forums with duplicate posts. 10-25-2019 01:34 AM #2 Originally published by E4EO Hello everyone, I recently got my DRK to 72 with 99% of that time spent leveling making roulette, it was not the fastest thing in the world, but I wasn't in a huge race, but now with 5.1 around the corner I need hustle if I intend to get my DRK to 80 before Tuesday and I have time to practice my rotation. As a tank the best way remains the same as it has always been. Spam runs the highest level of dungeon you have. At your current level the Holmster Switch73, Dohn Meg up to 75, etc. This will almost always be the most efficient way to level a reservoir or a healer like trusts while an instant queue tend to take a little. Where you can usually get a fast run in DF with a nearby queue insta. Usually it takes about 3 or so it works a level. 10-25-2019 01:35 AM #3 Roulette, challenge logs and fates. Fates can also net yo 1mil exp value if you have the buff fate while you make a bonus destiny. Only one other thing is to do the dungeon which is the highest level that you can achieve. 10-25-2019 01:46 #4 Daily Roulette and register of weekly challenges. And if you are not disturbed by boredom, you can always do dungeons with Trusts, as a reservoir all you have to do is pull the mobs, use some AoEs for cling and you can effectively afk until PCN kill them. 10-25-2019 02:18 #5 Rolettes for Daily Bonus then DUNGEONS after, select the highest Lv Dungeon for your job and farm it (do not go for final-game Lv50/60/70 Dungeons, the EXP in there is not high). Fates are not a big problem at all, every wave of Dungeon gives you more EXP than the Fates and is faster to clear, the Fates require a lot of time to get rid, you need to continue running around the whole map to reach it, you need to wait until the next deposition and gives less EXP to you. Lv70: go to Castrum Abania until Lv71. Lv71: go to Holminster Switch until Lv73. Lv73: go to Dohn Mheg until Lv75. Lv75: go to Qitana Ravel until Lv77. Lv77: go to the pit of Malikah until Lv79. Lv79: go to Mount Gulg up to Lv80. 10-25-2019 02:30 #6 I completely agree.the person above, even if I wanted to add. I see people who say "making roulette", so I wanted to emphasize that doing the lv50/60/70 roueltte gives less exp than just doing the most suitable at dungeon level (or at least, I think it was the last time I checked; please correct me if I'm wrong). Jump. I usually stick to the leveling roulette. I don't know which other roulette is worth the time. Jump. I usually stick to the leveling roulette. I don't know what other roulette is worth the time. Yup, Lv50/60/70 Roulette no longer give EXP than your highest Dungeon available, because as I said End-Game Dungeons is not worth for EXP points and that Rolette is made of those Dungeons only, Adds and boss EXP in there is a joke, said that all Rolettes except that one is the value 10-25-2019 02:59 AM #9 just do the highest level... I believe that the alliance dr raid give decent amounts of exp so with the current event of mooogle tomes you will have ridiculously high chance to get the Crystal Tower series which is the easiest and fastest of all other incursions (and also gives clustersYou are lucky to have that adventurer in your needs) 10-25-2019 03:04 AM #10 I level my simple and relaxed work with Main ro and Alliance ro. Those two roulette by themselves almost guarantee a complete level. And after I did, I run the dungeons with my trusts. It could be faster to do with a random party, but I don't mind taking my time. It also allows me to learn my work in peace. Last updated by Barachim; 10-25-2019 at 05:31. PM.
