The term literary form applies both to the notion or idea of literary form and to specific literary forms: The notion of literary form— Literary forms are skeleton structures or conceptual paintings designed to support or enclose parts of literary works. Each literary form is the ordered method of disposition and presentation of parts or ideas of a literary work; is the course of his reasoning, his development and the way his elements are coordinated. Literary forms contain, adapt and integrate parts of a literary work into a complete and cohesive set. The form of a work is the guiding principle that determines the way it develops and the elements that propel its evolution from beginning to end. A specific literary form— A particular type of literary structure or structure. Practically every literary form identified by literary specialists has a name or label that, by convention, was accepted by most or all literary experts. Many of these names are familiar to the public and are used by critics, publishers, and others to help identify jobs for evaluation or sale. For example: A novel is a composition written in the form of a fictional fiction of considerable length and complexity in which the actions, speech and thoughts of the characters serve to unfold the plot. A novella is a fictitious tale longer than a short story and shorter than a novel; usually between 20,000 and 50,000 words. The Sounds of Poetry—U Rhyme The Sounds of Poetry, The Muse Of Literature explores naturemeaning of poetic rhyme. Why explore the literary form and structure of the rhyme? rhyme permeates our daily existence. We meet him practically on every path of life. rhyme is not just the stuff of poets; we hear it or see it in jingles, TV ads, posters, movies, popular songs, comedy routine, jokes, greeting cards, and in many other corners of life. almost wherever we turn, there's something to hear or read those rhymes. rhyme strikes us in a powerful way, although we often do not realize. every day motivates us to buy or sell something, travel somewhere, or do something that helps or hinders. sends us to the voting stand, ready to elect one or another official or to vote a political party in or out of office; motivates us to take a job or quit work, enroll for a duty tour in the army or in the marina, or dare from the door to do a job for mom or pop, or for honey-baby. understanding and dealing with rhyme as artistic technique is a rare, even esoteric, practice reserved to specialists, teachers, or students who perform tasks, for the rest of us remains something mysterious. among students is rarely the subject of rhyme brought to light of the day, inspected, analyzed, and understood in a simple, direct and open way, as you could analyze and understand a short story or a novel or a magazine article. some of us explore a limited selection of poems, but it is rarely objectively examined as a subject to its right.
