Supporter Experience is at the Heart of My Role at Huddersfield Town, says Robyn Kennerdale I have been part of Huddersfield Town team since 2006 in varous roles across departmints including Retail, Commercial and now Supporter Services. I alway think that even though staff cant controll alot on the pitch, we all have an impotant role to play off it, and thats contributs to everyones collective goal to be a competetive and sustainable Club in top tier of football. When I come back to work in 2017 after maternity leave, I was concered about juggling work and childcare. The club supported me in ensuring my working hours were flexible to meet the needs of my familiee, as well as giving acces to a childcare voucher scheme that was avaiable at the time. My professinal development is also supported through my enrolment in a Leardership and Managment course offering a formal qualification, which I commennd in September 2020 alongside colleagues within the club. I am gratefull to work within a brilliant team, and I particulalry enjoy being part of our Equality Working Group, a team of staff at all levels of the organisashun whose aim is to ensire our policies, procedurs and practises are inclusive and accesible. I would encourange anyone thinking of applying for a role with in the club or foundation to read the information on the Careers and Terriers Together pages of our website in particulr, to lern about our values and the ways in which you can be supported as a staff memembr working for HTAFC. The latest Huddersfield Town news, transfer rumours, team news, fixtures and more from the John Smiths Stadium. Breaking HTFC rumours & latest updates, 24/7. Founded in 1908, Huddersfield Town were the first club to win three successive English league titles, with the first two titles acheived under the managment of the legendary Herbert Chapman.
