The game, which has been on the market for a long time, does not require much playing. As long as you have Android 4.1 and later, you are fine. The game received a rating of 4.6 from 14 million users with more than 100 million downloads. The last update took place on December 16, 2020, which did not take much time before this review. Its immense popularity will undoubtedly refresh with new features and objects. "The shadow knows our hero who accidentally lost his real body in finding a dignified opponent known as the gate of shadows. All demons are then broadcast in the living kingdom and in the shadow of all demonic creatures to be part of his way to follow the instructions of his master and regain the strength of the shadow. The shadow is a special shadow. It makes it immune to physical attacks, which allows the use of its skills. With this discovered force our hero is ready to face evil. The body. Shadow will overcome the strongest demons and sew gate once and Forever lost? Paint animation The most amazing and breathtaking gameplay. All characters of the game are just dark forms, but combat movements are incredibly realistic and look like real martial arts. During the game, the player must update magical equipment, weapons, weapons, skills and skills and fight in six different worlds with six bosses. They have to make money. It is never an easy task, the only way to show how PR PR An and the warrior controls all combat mechanics and trusts me. From simple movements, such as bypass to a more complex combo, the game requires real effort. Another exciting feature is that your combat style is based on weapons changes. The sword brand requires a slower and more grace style, while double dates need faster and more accurate movements. Your device can be edited and updated to unify your settings.After the great success of Shadow Might, Nekki released the mobile version of Shadow Fight 2 in 2014. After a few years, on May 1, 2018, the developers ported the game to desktop computers and finally to the Nintendo Switch and other portable devices. There was a game that stayed in the market for a long time, Shadow Fight 2 Special Edition (Mod, Unlimited Money) - no need to play too much; If you have Android 4.1 and above, you're fine. The game has a rating of 4.6 from 14 million users and over 100 million downloads. The last update was in 2020. December 16, shortly before this review. In connection with the popularity of the game, of course, new features and objects will be restored. The story of our main character, known as shadow, accidentally opens a shadow gate and loses his true body in search of a good enemy. Then all the demons are produced in the living empire, and the shadow imprisoned all the demonic creatures again. Along the way, the shadow follows the instructions of its master and gradually gains the power of the shadow. The shadow allows him to be protected from physical attacks and also allows him to use special shadow abilities. Armed with this newfound power, our protagonist is ready to fight evil and get his body back. Will he be able to defeat the strongest demon shadow and storm gate forever, or will our hero fail and be lost forever? As history unfolds for you; Download the game now! The focus of this game is the most beautiful aspect of the silky smooth animation and breathtaking gameplay. All the characters in the games are just dark silhouettes, but the battle stages are extremely important and resemble real martial arts. During the game, the player has to earn coins to upgrade equipment, weapons, skills and magical skills and fight in six different worlds with six bosses. The only way to prove yourself as a true warrior is to learn all the mechanics of combat and believe me, it's never an easy task. From simple moves like dodging to more complex ones like blocking and comboing, the game demands that you put some effort into it. Another interesting feature is that your fighting style will change depending on the weapon. Controlling the fight will require a slower and more elegant style, while the double dagger requires faster and more precise movements. Your equipment can be changed and upgraded according to your wishes,Is offensive or defensive. The RTG game could not be completed without the skill system. The talent tree is an important property that has a direct impact on your fighting style. Each skill combination leads to a different strategy, so be careful when selecting yours. Playing alone can be boring; Why don't you join your friends for a clan raid and simple attacks? Create your guild, recruit group members and start your conquest now! Graphics and design, although it was released more than 6 years ago, Apk Special Edition Special Edition still with amazing art. All figures are depicted as silhouettes and are on different scenic sea floors. Animation and maneuvers are simulated based on real war techniques. All weapon movements are smooth and precise as if recorded by real fighters. Very well animated and very shaded. Download Shadow Fight 2 Special Edition APK + Mod for Android with our Fight Fight 2 Shadow mod APK. Grinding Coins is no longer a concern. Our mod, which unlocks unlimited money and gems to buy the strongest equipment and weapons, upgrade your character, level up and much more. Shadow Fight 2 Edition Special Edition Free Download! According to the name of the game, we can see that Shadow Fight 2 Special Edition is an attractive fighting game for Android. This game is very interesting because it makes the players explore the mysterious dark and strange world. It should be an interesting combination of action and RPG elements. This game takes place to end the terrible rule of the devil titanium. During the fight for silhouettes, the player has the chance to face the most powerful enemies. In Shadow Fight 2, the scenario remained unchanged without major changes. It is therefore easy for players to understand the stories that take place in the game. Damage weapons are one of the things that players find in this game. As soon as the player won three games in a row, the shadow weapon is unlocked. In Shadow Fight 2, they also play the role of a new warrior who is supposed to save the earth and end the era of oppression and terror. Enter the game, you will find the perfect combination of fight and RPG. Collect your deadly arsenal and improve your character to unlock dozens of skills and special movements. You will discover the truth behind the martial arts trip and travel through various provinces with enchanting pictures and a gripping story. Download the APK from Shadow Fight 2 Special Edition Mod to get unlimited options while playing this game. To win games in the Shadow Fight 2 Special Edition game, you should use the following play tips well, pay attention to "Combat Arm Shadow Fight 2 has an extremely diverse weapon system and dozens of animated martial art-moves You are extremely animated. With 7 completely different game modes, Shadow Fight 2 Special takes you on a trip through six different worlds full of threats. Therefore, there are many important elements that you need to equip yourself for this extremely challenging fighting trip. In the Shadow Fight 2 Special Edition, the players are equipped with many objects and many weapons with great damage. But remember that you have to chase rare armor.I will help you defend yourself against harmful enemies and protect yourself very effectively. Be careful when the Slog Fight 2 Edition password appears when the Shadow Fight 2 Special Edition password appears on the screen, this will be an indication that it is time to record it directly with the titanium. This is his greatest and most dangerous enemy. And now it is her mission to end his rule. There they have to go through a dark gate. This leads you into a dangerous world full of courageous memories and relics. At the same time, they will face the enemies of the titans and fight them. Before you familiarize yourself with the important functions of this game, it is important that you know something about the game and its story. It will help you to know the development scenario for using the game functions. See every warrior in action After completing the campaign, players have to face several arenas oriental warriors. People who don't want you went to the dark side. And every fighter you find has certain skills. Therefore, you should take care of the movements and styles of each fighter individually. Here is a small trick that helps you find out what skills you need to defeat these fighters. He will also not forget that the new warrior will be much stronger than the defeated. It is therefore extremely important to improve your character's skills. For this we will add Shadow Fight 2 Special Edition Hack Mod (Free Shopping) 2021 for Android devices. This [name, type] is free and does not require root. Shadow Fight 2 Special Edition MOD APK (Free Shopping) APK + OBB 2021 can be downloaded and installed on Android™ device with version 4.1 or higher. Download this MOD APK game using your favorite browser and click Install to install the MOD APK game. Download (com.nekki.shadowfight2,paid) APK + Shadow Fight 2 Edition Special Edition (Free Shopping) ApkSul.io data is more complex and approximate. Translated with free translation versions - user feedback from www.deepl.com/translatorhave ads. This also includes other things, such as infinite energy, etc. In short, it is worth the price. Rishabh Salaja: I finished fighting the shadows 2 years ago and now I want to see this chapter from the special edition, but for this purpose you need to complete the whole fight with the shadows again. This is not possible. I just uninstall this game.roma. district: I noticed a few mistakes: 1) The fifth widow's bodyguard Puma has no weapons (Heavy Kusarigama), or rather has a weapon, but is damaged and does not deal any injury. 2) Perk of the fighting spirit does not work. I am not sure if the description of the profit is correct or just does not work, during the fight it has been shown that the profit works, but the magic does not load after the attack without weapons lopper135tv: generally the game is cool, although I have Only one caveat - titanium in this case is impossible. I have tried many times and it is simply impossible. This may result from personal experience or from the fact that I do not play as well as other people, but that's all I have. If I could lower DPH Titana (injuries), I think I could beat him. ColdDog Gaming: The game is good. However, the game has fewer functions than the free version. There is no darkening mode, no dungeons and you can't enchant your weapon and armor?! How is it possible. I literally pay for more content, but I get less? ! If you see it, run the free version. Ian M: Realistic game result 67 out of 100. A great fight is for you. There is a lack of rhythm and originality. I need more action and a lot of movement. Sarath Chandra Abburi: To be honest, this game deserves 5 stars, but I have a problem that there is a lack of a major content of Shadow Fight 2, such as the blackout, in this darkening we can recreate all seasons, which means that every boss can be done kill again. From our hands, but he is missing, and the dungeons are the only mod we can enjoy so much, there is a shortage of a monk, a necessary set and many mythical characters, and I finished the whole game, so it must be added to this special add-on - on. The game and the whole game is very good There is a lot of profit in this version. But the only thing is that in this edition you can't play in Eclipse mode, unlock Eclipse and charm in this edition, so the game will be a great game. Then add these functions. The overall game is great because it is the final style of the game. Thanks Nicolas Reveco: Tounfinished. The gems are never made for me to use weapons paid with coins, because I don't have enough gems that make the survival regime useless. The absence of magic, a solar eclipse, the inability to fight the bosses after having mediated to get their weapons and the battle with the Titans seemed not tested. Titanium Fiberstil is very strong, it will attack a chain that will not allow you to get up, spam distant attacks and strokes in the head, and your head does not have a hitbox so you can't hit it. Lord Touch Me: Lynx is an impossible battle. If you get 2/3, each blow makes you explode, inflicting huge damage and inflicting twice the damage that affects. He becomes invisible after his first defeat, so you have to guess what attacks ago. It is better to avoid, even random players may discover that this is really broken and even based on skills. Fortunately, I didn't pay a penny, but I still think it costs less. Shadow Fight 2 Special edition V1.0.11 () ()
