So I got this app thinking oh boy I can't wait to get a cape an I was fine with paying BUT I asked my friend which cape to get on this app and he had said NONE he told me that it was a total top off so then I wanted a SKIN but you have the to pay for that TO?! could get a free skins from mpce add-ons that isn't in all black so... Ya if you fixed these bugs I might play again When I turn on Minecraft it always shows the skin to be invisible so I don't know if the cape is real when I opened the app up I was like I hope it wasn't a rip off so after all of the complaining I would rate this app zero stars because of how much of a rip off and how it just doesn't show up on Minecraft so plz fix this because it is crashing a lot I mean a lot for me I always reset Minecraft to see if it's a bug and guess what NOTHING FREAKING HAPPENS so this app must be must be taken off the App Store The end Hey I wanted to know if u CAN FREAKING FIX THIS APP I KNOW I ALREADY SAID IT BUT OKAY Okay guys this app is super duper hated because when I installed the app then I went to the app there was so many cool skins I was so excited when I was gonna see the magic but when I put the skin in photos then I put it in Minecraft it showed the previous skin that I was wearing so that was the story of what happened But I love playing Minecraft but I have 2 apps that work! 1.Skins for Minecraft 2.Custom Skin Creator This app stinks. Every skin I get turns out pitch black in my Minecraft PE on my iPad. I don't suggest this app. In my opinion, this should be taken off the market. P.S You don't actually get just the cape. You only get the skin, and the cape is part of the skin. So fix this, and you will get a better rating. I hate it because it doesn't even show that much of a real cape. Omg I feel like I'm going to explode with anger because this girl costume is so weird jeez ur so bad at making games well I think u should change or delete this trash game 🤔 Developed by Tosak Promjanthuek. i'mgoing to show you how to getcustom capes in minecraft pocket editionor mgb 1.16 as you can see i'm on thelatest version of the emotes and stuffand you can get custom capes all rightany cape texture that you wantor you can even create your own customcape and use it it is amazing as youguys can see i'm using one right nowuh it is awesome guys before we startguys do before and subscribe to thechannel all right so you don't miss outon with these videos right you don'twant to miss them out also guys makesure to leave a like on this videobecause that supports my channela lot once can we aim for 500 likes iknow you guys could do ituh let's get 500 like that'll make myday honestlyuh and yeah if you guys want a shout outbecause i'm i'm trying to help otherpeopleout as well here uh so i'm doingsubscriber shout outs so if you guyswant a shout out all you have to dois find a hidden world in this video uhand you might get a shout out in my nextvideo so today's subscriber shout outgoes to this person on screenso shout out to you right withoutfurther ado let's grab the videoall right for this trick to work youwill need to install new playeranimation mod or add-onuh because without it it won't work soif you wantyou have to download this new playeranimation i will leave a link in thedescription down belowand once you've installed that guys youwill need an image editoruh so i'm using photoshop you could useany but i'm using photoshop solet's move over to photoshop and yourphoto editor all you have to do is openup your skin all right and make sureyour skin does not have any outer layersor like second layers because this won'twork otherwise so i've removed all thesecond layers from my skinuh and all you have to do is after youopen up the skin you have toget a texture all right a cape textureso here it is here's whati'm going to be using a creeper one onceyou have your texture guys all you haveto do is likemake sure it's in this position where itis right now all rightpause the video take a good look at ituh it has to be therelike place it very carefully and onceyou're done with that guys just saveyour skin so i'm gonna quicklydo a done and save my skin all right nowif you're wondering how to get the capetexture or how to create your own capeuh i i use thisapp 3d uh cape creator uh if you guyshave any other ways you can use that buti recommend this one because i it waseasier for meuh so once you open this app if you wantto create your own cake you have to careclick on cakeeditor and then you can create your owncake but i didn't do thati'm going to quickly exit out of this unthere we goi spawn an already existing cape clickon more capesuh this is where i got all the capetexture from and let's say we want thispiston capethis one right here all you have to dois click on this little pencil buttonand then save it all right just save thecape name it anything uhpiston there we go just do piston therewe goand yeah just save the cape there we gonow the cape texture should be safe ifyou have your skin with the cape textureon ituh go in your files locate where yourlike picture isyour skin is with the cape on it uh somine is right hereuh click and hold on it and rename theskin so i'm gonna quickly rename ityou have to make sure the skin is pngand you have to rename it steve allright withuh no capital s just normal steve renamethatall right once you rename that click andcopy copy that skinand go to your games folder all rightonce you're on your games folder go tocom.mojangand go to resource packs and then findthe non uhnew player animation mod so i'm going toquickly scroll i have so much stuff in here all right there wego there it isnpa v 0.3 i'm going to click on thatuh go down to textures and click onentity there we go as you can see ialready have my skin there but i'm goingto copy hereand i'm uh just replace it whatever skinthere is and boom you have a new capeyou've copied it here guys just refreshminecraft andminecraft what do you have to do iscreate a brand new worldand apply the new player animation onceyou've done all the steps there we goi'm gonna create and we'll see the brandnew cape and boom look at that guys i'vegot the brand new cape the creeper capethat we put onso how sick is that plus you get theplayer animation mod how sick is thatdude i love this little animation moduh so yeah if you guys want to changethe cape againyou have to do all that procedue likeonce againand once you've done like once you havea new capeyou have to create a new world becauselet's say i want to change my cape againi do all the stuff and when i come backto this world i'm gonna still have thisblue caperight so every time you like uh changeyour cape you have to change your worldsas wellso yeah because it doesn't update theadd-on and stuff like thatso but i wouldn't recommend changing thecapes again and again because it's justa hecticso find a good cape and apply it and youcould use it so how coolis that guys so yeah guys that's it fortoday's video hopefully you guys enjoythe video leave a like if you didtell me the comments what you guys wantto see next and i'll see you guys nexttime have a great daynight peace out guys peace America's Resort since 1778 -Visit The Greenbrier and find out what it means to experience Life as Few Know It. Capes are rare vanity items and are worn in addition to the player's skin. They also change the appearance of worn elytra . There is currently no way to obtain a cape on one's own in Java Edition , although there are various mods like Optifine that allow players to obtain one... If the user wants to provide his Minecraft character with personal characteristics he can install the cape. You can express your fan preferences or just decorate your in-game alter ego in this way. This is a great way to declare ones belonging to one of the server teams if a division of users into groups according to the interests and friendly sympathies is implemented there. Minecraft players (like you!) are using their amazing creative brains to concoct incredible new ways to play on mobile, Xbox One, Windows 10 PCs, Nintendo Switch, and PlayStation 4. From community-made skins and textures to hand-crafted worlds and epic adventures, you can find it all on Minecraft Marketplace. SEE WHAT'S POPULAR How can you get hold of a Minecraft cape, you ask? You may have heard rumours, whispers of a mythical piece of cloth that adorns the shoulders of the most elite Minecraft players. The legends speak of myriad Minecraft capes handed out to the lucky few over the years. Word on the block (sigh) is that capes also modify the appearance of Minecraft Elytra, the magical wings found in end ships, as they occupy the same space on a player's back. Needless to say, Minecraft capes are highly coveted, but they haven't been easy to get. Those who ventured to a MINECON event prior to Minecon Earth 2017 each received a cape; each year a different colour and design. Even rarer still are the personal capes gifted to lucky individuals in recognition of their achievements, like Reddit user u/billyk_ who was given a personal turtle cape for suggesting that turtles be added to Minecraft. Unless you can come up with a suggestion as good as turtles (unlikely) or can time travel back to Minecons past, it looks like you're out of luck when it comes to obtaining any of the Minecraft capes that are currently flapping around out there. You can try on a cape with the help of Minecraft mods, though it'll only be visible to you – or if you own Minecraft Bedrock edition, you can get access to capes through skin packs. There is a way to get your hands on a cape for Minecraft Java edition, though – read on to find out how. Get a Minecraft cape by migrating your account In a blog post in 2020, Mojang announced that all Minecraft Java edition accounts will be migrated from Mojang to Microsoft. This is a mandatory change, so if you don't switch your account over when the time comes, you eventually won't be able to play Minecraft any more. Boo. On the plus side, though, once you log in to Minecraft using your Microsoft account, you'll unlock a shiny new cape – and maybe more, as Mojang hints at players receiving 'more than one outfit to show off'. Existing accounts will start to move over in early 2021, and will be migrated in batches, so keep an eye on your inbox for the email letting you know it's time to make the switch and earn your cape – or is that 'capes'? New Minecraft accounts will automatically be set up with Microsoft instead of Mojang starting this autumn. You can read up about how to do it when the time comes by reading this official blog post from Mojang. Get a cape with Minecraft mods What if you desperately want your avatar to have a cape right now, and you can't wait any longer for the accounts to be migrated? Luckily, with the power of mods, you can get your own cape to bellow behind you as you walk! You can obtain any of the coveted capes in the game – or even better, any cape you can conceive of – using mods like the Advanced Capes Mod. There is a caveat though: other players you meet on multiplayer Minecraft servers won't be able to see your cape unless they also have the same mods installed. The only way to get capes that everyone can see is by waiting for official capes to be gifted to you from Mojang as it migrates your account. Related: how to manage your mods with Minecraft Forge That's everything you need to know about getting yourself a cool Minecraft cape – if you're looking to complete your ensemble, here are the best Minecraft skins we've found; or you could kit yourself out with a full suit of Minecraft netherite armour.
