GENERAL APTITUDE TEST

The test will consist of the four areas listed below.

1. General Learning Ability

The ability to "catch on" or understand instructions and underlying principles.
the ability to reason and make judgments.

Measured by testing three areas:

- Spatial: Three-dimensional space
- Verbal/verv: Ability to understand the meaning of words and how to use them effectively
- Arithmetic Reasoning: Solving arithmetic problems expressed verbally

Suggested study guide: There are numerous books that can be found in the library, book store or online containing the subjects listed above. There is not one specific book that we recommend for studying this area.

2. Numerical Aptitude

The ability to perform arithmetic operations quickly and accurately. Consists of a number of arithmetic exercises requiring the addition, subtraction, multiplication or division of whole numbers.

Suggested study guide: There are numerous books that can be found in the library, book store or online containing the subjects listed above. There is not one specific book that we recommend for studying this area.

3. Spatial Aptitude

The ability to think visually of geometric forms and to comprehend the two-dimensional representation of three-dimensional objects. The ability to recognize the relationship resulting from the movement of objects in space.

Suggested study guide: Area Mechanical Aptitude & Spatial Relations Tests

A portion of this book contains Spatial Relations sample tests. Any edition of this book can be used for study purposes. May be found in the library, book store or online.

4. Motor Coordination

The ability to coordinate eyes or fingers rapidly and accurately in making precise movements with speed. The ability to make a movement measured accurately and easily.

Suggested study guide: There is no precise method of studying or book to use for this area. It is hand and eye coordination. Those who play sports or video games usually do well in this area.

PILOT RECRUITMENT PROGRAM

In 2016, Overseas Manpower Solutions (OMS) launched a foreign recruitment program designed to alleviate pilot shortages within the domestic aviation market. Recruiting both helicopter and fixed wing jet pilots, we are using our recruiting and in-house immigration expertise to deliver highly trained, experienced, fully licensed and I-9 compliant pilots to U.S. aviation clients. Building on 15 years of experience successfully recruiting foreign healthcare workers, we developed this program to address a market need that has resulted in several high profile airline bankruptcies, a direct result of pilot shortages.

THE PROCESS

- OMS recruits, screens and checks references of foreign pilots with a minimum of 1500 documented flight hours.
- Eligible pilots must have ATP, and must have English proficiency.
- OMS manages the contracting process and ensures that all required contracts are executed properly.
- OMS arranges for interviews so each client can assess the selected pilots and make a final hiring decision.
- OMS completes all immigration processing (green card - permanent residency) on behalf of the pilot/client to ensure that each pilot meets I-9 compliance and can legally work in the U.S.

To participate in the foreign pilot recruitment program, pilot candidates will need to complete the following steps:

- Email CV to (fly@overseasmanpower.com) for review;
- Pilot must submit all requested documentation;
- OMS Interview;
- Interview with airline company recruiter;
- If pilot is offered a position by airline, pilot signs a contract with OMS requiring an upfront payment to OMS of \$3,000 followed by 48 monthly payments of \$800 (total \$38,400) which commence when pilot begins working for the airline.
- The legal/immigration process will take approximately 12-18 months to complete.
- When pilot starts work, pilot starts making the monthly payments described above to OMS.

Royal navy flying aptitude test practice.

One way to do that is to go to the test familiar with how ³ works, including the different types of questions that can arise. The objective of this test is to evaluate your personality against the characteristics that the airline is looking for in its pilots. He gave an example of a time when he made a mistake while working and what he did to prevent it from happening again. Whether you're a cadet who just started, or an experienced pilot who joins an airline, JobTestPrep has everything you need to practice your pilot aptitude test. Math Tests A€ Å These tests cover speed, distance, time questions, and . Pilot evaluations, whether for PILAPT, FTOs, RAF or aerolÅ neas, typically include a series of psychomotor, fitness and psychomotor skill tests. Pilot aptitude tests examine candidates through a variety of challenging tests and question styles. They don't examine your knowledge, but assess your potential work skills. Give an example of a time when you have to meet a deadline. All our resources are aimed at helping you get the job you want. Group members may be applying for the same position as you or for other positions. We provide preparation packages ² contain more than 100 practice tests. They can be used in a group environment, during a presentation² or, as is more common, one-on-one with an adviser, with the candidate assuming a specific role. Make sure you are at the top of your game by preparing ³ with JobTestPrep pilot resources. A role-playing exercise is used to evaluate your 'fit' to the relevant work³ n. These tests are used in many procurement ³. In your daily work, you need to be able to read and understand Number and make calculations quickly and accurately. Remember that apart from your primary duty to safely fly a aviÅ n² as a pilot, you are also a representative of the airline brand Å Å .
