This is the sound of hundreds of thousands of Netflix accounts who put in advance of the home of the debut cards of the season 3, which is now just hours away. (Exact, I said hours!) But before you want to dive into our single observation comas, I feel it is important to consider whether or not this will be the season of the last home cards that we will never experience. I mean, don't be a complete back or other, but if this is my last lap with Frank Underwood, then I'm sure that the hell I want to know, so I can completely enjoy our time together as much as possible. Because here is here the thing: many people believe that season 3 will be the series of Netflix 'last, including the Jefferson Grubs of Bustle, which makes a very convincing case about why this could be the end of the road to ours Favorite political drama. But only to play the Devil's lawyer, I decided to do a little by digging my about it in his hand and believe that there are still some justifiable reasons that we should not give up the hope of a renewal of the fourth season. Because, just like Frank, he always taught us, when there is a will - there is definitely a way. And as this test shows, this series still has a clear clarified in a return. Spakavys suggested that there is more than coming may not come out and confirmed that the card house of the season 4 is in the works, but when asked by the National after winning his Golden Globe this year on how long He signed for the Netflix series, he replied saying: "As long as they want to continue doing it and it is doing a lot of time. Continue to tell the story until we feel the story is worth saying". It doesn't look like someone who has envired the towel on their character for the good, right? If something, it shows that it's still more history to tell, and I say. It. On. The lack of advertising, Netflix had announced that hoc has been withdrawn for a third season a few weeks before the debut of the season 2, but it could only be because an early revelation has not really given anything at that time. But if we feel that season 4 was officially happening right now, then we all knew for sure that Frank's life is not at risk. (After all, they would not dare to have another season without the mail main star.) Then tender in the dark does not necessarily suggest that we are reaching the end of the era. It could only be the way to Netflix to keep us in suspense during our binge surveillance mania. However, if it has not yet been announced a month from now on, then It's another story. But for now, I am totally well with the maintenance of the mail raised. Symbolism is too perfect to resist resisting more than you made math now. There are four tenders' suits in every bunch of cards, so the fact that every hoc season contains thirteen episodes means that we should have reached a fourth season in order order Get a complete bridge. Finish after only 39 chapters do not have the same symmetry, do you know? Granted, it could be argued that the U.K version. It lasted only a total of three seasons, so the u.s version is likely. The absence will follow. But let's not forget that Francis Urquhart (Underwood's British counterpart) reached him a season before the Spacey character. With the logic one, it takes Netflix two seasons to complete what U.K. It does it in one. Only saying. It is also worth mentioning that many people have made several parallels between this series and the Richard III of Shakespeare, which contains a total of five acts. So it could be counter-claimed that even a season 5 could be brought to the mix if the story allows it. In any case, the dream is still alive, people! Don't throw your hand in your hand. Improves: Nathaniel Bell / Netflix, Giphy (2), FuckyeAHSPACEY / Tumblr NetflixSpoilers forward for home plus season 5 part A. The Tanner house is always full of songs A e â, ~ "even more since the most full family of Dj family and the Gibbler family of Kimmy has Taken the residence in Fuller House. The 2stephanie song in Danifor "The mayor's bird", Steve helps Stephanie to understand that having a son no means that she has to give up her dream of a satisfying career. Following his song "Boy next door" in the season 2 and "bring me luck" in the season 3, Stephanie is inspired by writing a song on her daughter by a child Dani. She sings a sweet song on the launch of a penny in a well she wanted and how Dani was the desire she wanted. In addition to Stephanie's Daighling in the world of children's music, a matt tranquil sings the theme song of the complete home because it makes him "feel happy inside". [KarenA e â, ~ "Some To confirm the name of the Steph song? It was not in the credits] 3 "Your children on the block" Brodes arrives to show his moves in "Amazing Dj 40a birthday race" when Steve is established Ramona, Max, Jackson, Tommy and Dog Cosmo to run like "your children On the block "for the 40th birthday of the Dj. Unfortunately, Dj. he hoped for an engagement and not for the beats for children and animals of the favorite favorite of him band. But hey, after the new children of the block cameo from season 2, this birthday performance brings the complete spectacle of the circle. Moreover, my synchronization of the lip, was adorable to watch the children to do the choreography "You have it (the right stuff)" as their mothers have recreated first on the series.4Lisa Loeb's Children's Songthere is nothing like a singer of life real. In your sister's veterinary clinic to help you start your musical career, like Stephanie learns in "five dates with Kimmy Gibbler". Lisa Loeb, who got a great fame in the 90s with his song "Stay (I missed you)" from reality bites, brings her cat to dj. And the veterinary clinic of Matt. While she lies, she performs her new song of her "sings", the relegated one reported that she wrote how a hymn pride for the National coming out day. As Stephanie emphasizes, Loeb has recently won the best album for her than her album of her feeling what you feel. So Dj. Against Loeb to return to Stephanie to run the song of her desired for her. She leads Loeb to harmonize with Steph and offer her possibility to open for some of the next dates of her tour, so Loeb could return to the second half of the 5Steve's Engagementtd.j season. You may not have obtained her big proposal for her for her 40th birthday, but she gets a performance for the flashman's engagement mob for the bleachers "we marry" in the final midseason, "a modest proposal". The band has come with a plan so that Steve could surprise Dj. With her proposal. Dj. He thought he was organizing the re-engagement of Fernando to Kimmy when he was instead planning them. Uncle Jesse, Joey, and Danny join the fun for the final with Stamos showing him's guitar skills. Now, Dj., Kimmy, and Stephanie are busy and are destined to be a great musical number to their common marriage. So the She-Wolf package is guaranteed to sing and dance again when the second half of the full house returns in 2020. 2020.
