May 7 Grow by importing files that can't download music! ! I had an old coat of arms and !I You gave up the second application of this program and you don't do good work to keep it! I couldn't download music, more than 2 months passed !!!!! It is better to fix it or move on to another program !! - too sick and tired of checking the reduced images of the songs I want to use for the future! I give you 2 weeks. If it is not resolved, I delete that I have a problem downloading new music when I want to look for new music, I do not show results, this problem has existed since October days, and the same things always work well but you should do something like this program because it is Same with a similar program with Tubids. But recently I had problems watching videos in this program. The videos I download in front of my hand work well, but now I can't download because I don't see any type of video in the app. It takes time to delete the program and download my music again. I want you to correct this problem so I can continue to download new videos. "Creator Tubidy FM Messia S.R.L.
