With his 1982 contribution to the cinematographic adaptation of Brimstone and Treecle, this self-confident and confident pop song was his first single from solo bona fide and showed that he was making significant artistic steps outside the police. The ideal choice of 1985 Sting debut solo principal single, The Dream of the Blue Turtles, the infectious You Love someone...à broke the UK Top 30 and became a huge Stateside hit, reaching number 3 on the Billboard Hot 100. It was also the first of a series of singles (stretching through three albums) on which Sting collaborated with famous New Orleans saxophonist and ex-Tonight Show bandleaderford Bran Marsalis. The recording àlt has a kind of Motown vibe and my soulful attempt at singing,à Sting told of the song in a 1994 interview with Independent On Sunday. àf had a great band at the time: Kenny Kirkland (keyboards), Branford Marsalis (saxophone), and Darryl Jones (bass). Yeah, Darryl's in The Rolling Stones now. He's one of my students I'm most proud of".As Sting confirms, "If You Love Someone"... was recorded in the same jazz/funk all-star outfit that helped him create the sublime, Grammy-nominated The Dream Of The Blue Turtles. However, the song itself was written in relative isolation in the early months of 1985. By this time Sting had moved into a house in Hampstead, North London, which had been an 18th-century pub. The singer-songwriter was struck by the strange atmosphere of the building, which he thought might be haunted. Feeling that the psychiatric atmosphere of the house needed to be released, Sting wrote "If You Love Someone, Set Them Free" with the song's title and lyric ("You want to keep your possessions, don't even think about me") about the idea of releasing someone imprisoned in a relationship. "I don't think the idea of loving someone and making them free is particularly original", Sting said in an NME interview at the time of the song's release. "Even if it's about relationships of love in a larger real estate arena of owning something, it surrounds it with protection. With its celebratory chorus and alternate groove on safe feet, àIf You Love Someone...à seemed tailor-made for live performance, so it's not surprising that once Sting put the song on his setlist around 1985, it wasn't really surprising that Sting put the song on his setlist. She never left. As far as the arrangement goes, it has undergone a number of changes over the years, but, as the revisiting of the song from the new My Songs collection shows, it is simply one of those high-quality pop songs with an appeal that makes it impervious to change trends. àIf you love someone, Set Them Freeà is was written as an antidote for "Every breath you take", Sting later revealed in a 1995 interview. "Every breath you take" was an obsessive surveillance of a loved one to the point of paranoia. I wanted to write a song that was the opposite. But both songs are a bit ambiguous because 'Every Breath You Take' has a kind of seductive and romantic side to it that a lot of people have although to me it is a very dark song. Some other people would have found 'If you love someone...' quite enough But I like it. This is what you do. A »My songs are out now. Now.
