At Jones Lang LaSalle, growth is a top priority. We will accept nothing less than being the global leader in real estate services and money management. Last year, we identified five strategic priorities for global growth—collectively known as the GS—that drive shareholder value, help our clients succeed and fuel the long-term performance of our firm.

We know where we want to go, and we have a sound plan for getting there. With record revenues and profits in 2005, we have made tremendous progress and exceeded expectations. And the journey has just begun.
