Audi a5 2018 manual transmission for sale

Cambridge, Cambridge 2020 (70) | 5,000 miles | Hatchback | 3000cc | diesel | Semiauto | 5 doors Features include cd player, abs, radio, auto dimming retrovisore, alarm, anti-theft, coupe, brake assist, cd, airbag, pas, remote control locking, usb port, driver, tyre repair kit, skin, adjustable belts front, immobilizer It allows you to buy a car that could otherwise be out of your price range, if you opt to go for a newer model or buy the make and the car model you have always wanted, but it could never before afford. If you are able to put down a small deposit or use your existing car as a partial exchange then monthly payments can be significantly reduced or your overall search budget increased. Our monthly search for car payment allows you to find carsprices you can afford to pay every month. Once you find the right car, then you can arrange the car finance from the comfort of your home. Everything can be done online, or by phone if you prefer, and once your application is accepted, you will know exactly where you are. Start looking now, you might be surprised at what cars you can actually afford! GREAT DIALTI GREAT DIALTI Reviewed for 2018, the A5 Coupe and the Cabriolet are the most sporty and witty brothers of the A4. Although based on that compact-luxury saloon, these 2-door models emphasize the design and pleasure of the driver, the traits made evident from the snug rear seats that accommodate only two, similar to the German rivals of the Mercedes-Benz C-Class coupe and the BMW 4 Series. The exception is the A5 Sportback, a 5-door lift that is practical as elegant. Like the 4 Series Gran Coupe, the A5 Sportback is actually more versatile than a sedan, and probably the most beautiful model of the line. Whatever A5 affects your imagination, you will get a luxury machine filled with features of technology and safety, and driving modes that hit the sweet point between comfort and dynamism. Driving the Audi A5Few coupes and convertibles used in 2018 merge between handling, refinement and panache like the Audi A5. If you consider the drivability of the whole season thanks to the standard integral traction, the A5 2018 is in one class alone. We really like the A5 acceleration mix (0-60 mph in 5.6 seconds), grip and general balance. Drive modes make a tangible difference in how the car feels, with steering stiffness and the engine and moves more responsive in dynamic mode. We left it in Auto and let the A5 adapt to driving situations as necessary. There may be initial delay instances if you nail the accelerator, but the car soon gets over and up to speed. The dual-friction automatic at 7 speed is smooth in almost any case. If you are in the "salva-the-manuals" field, Audi is among the few to offer a manual transmission — and all on three coupe finishes, no less. Favorite featuresVIRTUAL COCKP Audi's completely digital dash was around a few years, but it still amazes us. This optional configuration replaces the traditional instrument cluster with a 12.3-inch configurable digital display. When integrated with Google Earth satellite mapping, it dazzles and seems directly from the future. A5 SPORTBACK For those who love to have their cake and eat it, too, this new A5 variant combines an elegant design with four doors and a large rear door area that is easily accessible through a powered back door. The ice? It is the least expensive A5 model. Used 2018 Audi A5 Interior The last A5 continues the Audi anthem of elegant and corner lines with only buttons and knobs to justify their existence. We love the feeling of quality. The A5 front seats are well supported and guarantee an excellent driving position. The pair of rear seats in coupe and convertible models are small and to enter and exit for the least-che-agile. The rear seats bend, and combined with the large boot open the encommiable loading space. The A5 Sportback has rear doors and a 3-cross bench like a sedan, and 35 cubic feet of load space with folded seats. Used 2018 Audi A5 Exterior The A5 has more conservative lines than the most rounded and/or fluent form of rivals such as the Lexus RC, Infiniti Q60 and Mercedes-Benz C-Class. Retreated as it can be, the A5 is elegant, with one of its biggest sprays that are in front of a large trapezoidal grid. Unlike a BMW 4 Series (and like the new Mercedes C-Class convertible), the A5 convertible has a fabric roof instead of a folding hardtop. The A5 Sportback is essentially a smaller version of the fascinating A7, which merges a 4-door coupe silhouette with an ascending power lift that hides a good size rear load bay. Used 2018 Audi A5 Standard featuresAll A5 variants are available in three finishes: Premium, Premium Plus and Prestige. The basic models of each have leather interiors, front power seats, automatic trizone climate control, retrovisor camera and 18 inch wheels. The basic infotainment system includes a 7-inch display, AM/FM/CD/HD Radio, two USB ports, Bluetooth connectivity and Apple CarPlay compatibility and Android Auto. The Coupe models are equipped with a panoramic roof; the A5 cabriolet with roof in feeding fabric. Included is Audi Presence Basic and City. The first instantly prepares the car if a collision appearswhile the second aims to prevent one by detecting other cars and pedestrians and automatically braking. Used 2018 Audi A5 Options We think that the mid-trim Premium Plus A5 is worth the extra \$3,000, as it adds security features such as blind point monitoring with the rear cross-traffic, and will also notify you of an incoming vehicle when you exit the vehicle. Complete LED headlights, heated front seats and hand-free release of the trunk/tail are also included. Prestige trims add the Virtual Cockpit, 8.3 inch display with navigation, and a superb Bang & Olufsen system from 19 speakers. Other options include a heated steering wheel, ventilated front seats, head-up display and support package with adaptive cruise control, lane cleaning assistance and traffic signal recognition. Audi Connect Prime provides 4G LTE connectivity. Used 2018 Audi A5 EngineThe 2018 A5 uses a 2.4 litre turbo engine that makes 252 horses, enough to zip each 60 mph model in six seconds or less. All A5 variants are full traction. The A5 Cabriolet and Sportback use a 7-speed dual-clutch. The A5 Coupe offers that transmission or, in a nod to enthusiasts, a 6-speed manual transmission. Up to 34 mpg, the A5 is surprisingly efficient given its power. Help that is a boot/stop system that cuts the power of the idle engine and which can be defeated with the pressure of a button. If you are more powerful, consider the 354 S5 horses with a supercharged V6. If you are delusions of power, wait for 2018RS 5, which packs a 450 horsepower biturb V6. 2.0 liters turbocharged inline-4 252 power @ 5000-6,000 rpm 273 lb-ft torque @ 1,600-4,500 rpm EPA city / high fuel economy: 24/33 mpg (manual, Coupe), 24/34 mpg (automatic, Coupe, Cabriolet, Sportback) How does it work? 2018 Audi A5 Coupe has a recommended retail price of the manufacturer (MSRP) of \$43,775, a number which is the same if you choose manual or automatic transmission. At \$43,575, the A5 Sportback is actually the least expensive A5, although only \$200. From \$50,575, the Cabriolet is located on the top of the A5 social scale. From here, prices only go up. A5 Recharged Coupe or Sportback can reach over \$55,000, while the convertible A5 can reach the \$60,000 range. At these prices, the A5 is in line with the BMW 4 Series coupes and Mercedes-Benz C-Class, and above the starting signs of the Lexus RC coupe, Infiniti Q60 and Cadillac ATS. Before buying, make sure to check the KBB.com Fair Buy Price to see which others in your area are paying for their new Audi. The resale value of the A5 should be very good in the coming years. Come on. 2018 audi a5 coupe manual transmission for sale
