2013 buick verano infotainment manual

the buick verano of 2013 is now offered with three different possibilities of powertrain - instead of a single for 2012. The base models include a 4-cylinder 180-horse engine, 2.4L with direct injection. strengthens the front wheels through an automatic transmission at 6 speeds and provides the acceleration that is au pair with most medium sized berlines - and above all quiet and refined - while return epa rating of 21 mpg city, 32 highway. for 2013, a new turbocharged 2.0L turbocharged 4-cylinder engine, which makes 250 horses and 260 pounds of torque, combines the training and can be combined with a 6 speed automatic transmission or a 6-speed manual gearbox. the verano has one of the most quiet and refined interiors in any sedan of this dimension, thanks to the philosophy of buick's quiet tuning, as well as soft materials and narrow details throughout the interior. there is room for five in the porch, but the back seat of the bench is more shaped for two adults than for three in front. thanks to an acoustic windscreen, triple-seat doors, laminated side glasses and other measures, the interior of verano is luxury-quiet, with a fairly solid driving quality for good management but conforms enough to absorb irregularities. buick verano is offered as a single model, but with groups of options of construction equipment and appeal--with relatively modest price hikes. basic level, the verano includes a rich set of features that could fit any real luxury-brand vehicle, with keyless entry,start, automatic dual zone climate control, cruise control, rear heating channels, environmental lighting and a 6-driven audio system with USB port, iPod connectivity, satellite radio and Bluetooth, all standard. Above the base Buick Verano is the Convenience Group, which adds heated electric mirrors, a seat of the driver of power, a self-dimmer rearview mirror. The Leather Group adds top quality leather padding plus heated front seats, a heated steering wheel, button start, passive input and 18 inch alloy wheels. At the top of the line, the Premium Group adds the turbocharged engine, a rear spoiler, chrome exhaust tips, sports pedals, remote boot and a premium 9-drive Bose audio system. Buick's IntelliLink connectivity and infotainment system are now standard on all Verano models, even with the available GPS navigation system. With Bluetooth and USB connectivity, IntelliLink includes a 7-inch touch screen for audio display, and allows voice activation and controls mounted on wheels of audio and hands-free call functions. Users can also listen to Pandora and Stitcher Internet Relations services using smartphone data connection. The Bose audio system is fully available to IntelliLink and XM Travel Link services (by subscription) that provide access to service stations, fuel prices, film schedules and weather forecasts. All Verano models include security, security and OnStar concierge services.a smartphone app, owners can have remote access to some OnStar features. Otherwise, Verano includes a robust set of safety features, including ten standard airbags and stability control of StabiliTrak, 4-wheel anti-lock brakes with Panic Brake Assist and a folding pedal system. All Verano models above the basic level now also acquire a three-way of active safety features: Rear cross alert, side blind zone alarm--both could help avoid an accident - and Posterior Assist parking, which will make parallel parking much easier. Paper options on Verano are limited to a few factory possibilities, including a roof and a navigation system. Buick made the compact Verano chassis for 2015 -- with a Wi-Fi hotspot, of course. The engine choices remain unchanged: there is still the standard power of 180 horses of 2.4 liters four or optional 250 hp 2,0 liters turbo, but now the 4G LTE Wi-Fi is standard. The infotainment configuration of Buick, IntelliLink, is included in all Verano models of 2015, with a new OnStar system with 4G LTE and a hotspot to provide a mobile hub to help passengers and drivers stay connected. The hotspot will be alive every time the ignition is active, improving its usability. There will also be a three-month subscription, three gigabytes, plus six months of OnStar. IntelliLink can connect up to ten devices including smartphones, SD cards and MP3 players. Other standard features include Text Messaging Alerts forthat will read the texts on audio-system auto speakers and Siri Eyes Free integration for iOS 6 and iOS 7 users. If the driver forgets that they are actually in a car and not in a cafeteria, all except the Verano base also include avoiding collisions forward, lane ware warnings, blind point side detection and cross-rear alarm systems. The Verano also offers five years of the OnStar Base Plan, which includes Fob Key RemoteLink Services. Remote connection Fob key allows owners to remotely start and lock/unlock a car, and activate the horn and lights from anywhere with a data connection. In addition, it includes OnStar vehicle diagnostics, which performs a monthly engine control of a vehicle, transmission, anti-lock brakes and more. Those who prefer to spin their own (Save Manuals! Seriously!) will be sad to learn that the manual option at six speeds of the Turbo (we tested one and hit 60 mph in 6.4 seconds) was abandoned; all Veranos now have a six-speed automatic transmission. Also new for 2015 is a package of appearance characterized by Convenience and groups of leather finishes. Available on all models except the Turbo, the package includes a rear spoiler, a colored grid and Desert Dusk metal paint. Prices information has not been released, but expect it to remain close to the current base price of \$24,625. The increased connectivity 4G LTE Verano will arrive at Buick retailers by the year.
