The last 12 months were not easy. And I think we are all hoped that we can begin to see some light flickers at the end of this long COVID-19 tunnel thanks to the tireless work of the medical community and people around the world. In these historic times, the PlayStation team wanted to thank the community by giving something new. These days, we could all use something to look forward and another reason to stay quietly at social distance, so we are happy to offer a free selection of great games and some entertainment offers. Last April, we launched the Play At Home initiative, offering free two amazing PlayStation games: Uncharted: TheDrake collection and travel.* I like to think that they have contributed to make the year a little easier. This year, we wanted to go further. we have therefore designed a series of free games and entertainment offers for our Playtation community to make the next few months a little more fun and fun. This year's play at home initiative is beginning in March and extends until June. from 1 March 2021 playstation and insomniac games will make ratchet & clank ps4 available for free download for a limited time through playstation store from 1 March to 20:00 pst / 2 March at 4:00 gmt / 5am cet at 31 March 2021 at 20:00 pdt* / 1 April at 4:00 bst / 5:00 cest. once the game is redeemed, it will be yours to keep. this success of action-adventure ps4 of 2016 by insomniac games revisits the stories of origin of these beloved playstation heroes and presents a great mix of fighting and scandalous comedy. starting from 25 March 2021 our funimation friends (a joint venture of sony pictures entertainment and aniplex japan) are starting a very special offer. Extended access for new funimation or wakanim members in countries where ** are available. funimation is a core themed subscription service and wakanim is the European funimation division. While there will be more details to follow, this offer is only available for our community that enrolls and downloads funimation applications (in United States, United Kingdom, Ireland, Australia, and New Zealand) or wakanim (mostlyand northern Europe) from 25 March for a limited period. What we outlined today is just the beginning of what is in the store for Play At Home. In the coming weeks, we will share more details about free games and entertainment offers for our PlayStation community. I think we have a great mix of games and entertainment offers aligned, and I hope this news made your day just a little brighter. We consider ourselves privileged to bring you this show, and we are very grateful to be part of your life. Thanks for playing. *Uncharted: The Nathan Drake Collection has been supplied to PlayStation users in regions except Germany and China. Users in Germany and China received free access to Knack 2. That's an idea. FUNIMATION — At the top of the standard test of 14 days, new users can get an additional 90 days 3 months of access. WAKANIM — New users will get 90 free days. Unless you cancel your subscription before the end of the period, the subscription will be automatically entered into a paid subscription, which is currently undergoing a recurring monthly fee. Age restrictions apply. More information to follow. Jeg har meldt mig ud for flere måneder tilbage men de bliver ved a trække penge, selvom jeg også har prøvet a kontakte dem. Der sker dog ikke noget som helst og de bliver ved med a trække, den giver mig ikke engang premium selvom den trækker. Dybt Godnat. Dårlig og kommunikation service!!
