Indeed, you can create billions of dollars with only a small amount of initial capital. With a realistic simulated business model, you learn how to invest and use the capital to create a huge fortune.Idle gameplayThis game was developed by Hyper Hippo. If AdVenture Capitalist simulates the capitalist economy, AdVenture Communist humorously emulates the economy of a communist country. With clicker gameplay, all you need to do is touch to produce, here potatoes.Starting with just a farmer and a piece of land, you gradually develop your potato empire. Plant lots of potatoes and harvest. You can hire more farmers, and pay them with potatoes. Even, your empire can supply food for the whole world if you know how to invest properly.As an idle game, AdVenture Communist lets you continue to develop your empire even when you go to sleep and have closed the game. If someone knocks on your door or your boss assigns an unexpected job, relax and close the game. You can get potatoes and products the next time you open the game.Develop Potato empireFood is an important issue for all countries in the world. Without food, we cannot do anything else. Potatoes can be a good choice. Starting with potatoes, you can make many delicious dishes. French fries is one of my favourites.Develop your glorious potato empire. Become the nation's glorious leader. When your number of farmers is too large, build farms and towns. Upgrading necessary items will help you harvest more quickly and more and more farmers will work on your farm.Industrial upgradePotatoes are just the first thing you can produce. After having enough food, you can continue to produce and upgrade industries. AdVenture Communist allows you to upgrade plantations, towns, irrigation systems, electricity, factories, weapons, ... You can unlock a new industry when there is enough material required. You are provided with materials every time you level up.If you unlock a new industry, I recommend focusing on that industry instead of producing all industries. New industries often bring greater value.ResearchersIf you are a leader, researchers are great employees to help you speed up production exponentially. Like scientists, they are the ones who bring solutions to improve production speed. Researchers are divided into categories from Common, Rare, Epic and Supreme. You can unlock the researcher by changing resources or buying research capsules.Some tips & tricksOn the right of each region, there is a tab that limits the number of farmers you can buy. Always set this tab at Max. For example, a farmer costs 10 potatoes, but you can only buy 1 farmer even though you have 100 potatoes. When at Max, you can buy 10 farmers in one click.Watching Ads videos helps you maximize the Propaganda Meter. This clock helps you increase the entire production speed. When this effect ends, you can continue watching Ads videos to maintain.MOD APK version of AdVenture CommunistMOD FeatureFree Scientist UpgradeHow to usePlease don't upgrade all cards to the max. You can't collect cards for max upgrade cards. This is important for the Quest "collect x cards".Download AdVenture Communist MOD APK for AndroidOverall, AdVenture Communist doesn't have new gameplay compared to other idle games. Most of the time, you click to produce, upgrade, unlock and resume production. It may sound boring, but you can feel the pride of seeing your empire grow. adventure communist hack mod apk
