Perfect365.com / About / Terms-Services / Set 16, 2021 Version 8.84.19 * Improvements for minor performance and bug fixes This app is amazing! It works so well with few without bugs! One thing I would like to know is if I get the VIP update and I log in that my information is not stolen and you will receive the update. This app is safe for everyone so they can have apps that I have tried to have been inappropriate asking you about person information, but this app no. If you are thinking of getting this app you should because even if you don't take the VIP, there are so many options to choose from! Keep the updated app and add things constantly! It really looks like you're wearing makeup and hair color looks real! You can explore other people makeup and favorite your favorite appearance! You can also customize your looks in the tools! There is a live makeup mirror, you can't take photos or videos of you in the make-up you choose. L even you can choose to use one who created or personalize yours. You can also share your look with others! This app is amazing! I paid for many updates over the years and it was a great app. After the last update, it wouldn't be open, just crashed on the first screen above and more times. Removed and reinstalled and finally it is open but has lost almost all my fruits saved even though I have been signed. He worked for a while, he started crashing back to startup and now constantly blocks. If I remove and reinstall again. I'm going to lose all my new Makeover I just did. I'm so upset! I spent hours on these for other people and I can't get my Makeover finalized that I worked so hard. I will give 5 stars once it stops crashing. And please add a DOT indicator between the lower eyelid marker and the eye corner indicator inside. I don't know anyone that the eye doesn't bend at that point. And while I'm asking, please add a contour cursor like BeautyPlus. In fact, if you can add anything that beautyplus has yet not been incredible. In particular the manual fill option. Being also able to pull the face to remodel in manual manual mode and paint manually the corrector to the eyes (a miracle for any discoloration). And if I were to make a real wish list, I also ask even more shine points on the Lipgloss and to apply a technology gloss in the eyes in an improvement in the brightness of the eyes (as the tool of clarity in Relook. Thank you. I would prefer to these changes and I should pay \$ 10 a month for them, so they also have that points system. I tried several apps like this, but always returns to Ole 365. Never look at me more realistic (provided you don't have the bars set up more intense .. anyone who uses this knows what I'm talking about), I only have a small problem / suggestion. On the lip table under the beauty tools, I can very rarely use the lipstick or any kind of shadow on my lips, because the Â is set €
