Teacher Goal-Setting and Professional Development (GSPD) Plan Sample Document

The Goal-Setting and Professional Development (GSPD) process is an ongoing, recursive process where teachers reflect on current professional practices, identify professional growth goals, establish a professional development plan to attain those goals, track progress towards goals over the course of the year, and reflect on goal attainment, including how the goals and professional development actually refined practices. The teacher self-assessment, goal setting and professional development are all interwoven and applied throughout the year to positively impact each teacher's professional practices and ultimately increase student performance.

What does the GSPD process encompass?

Teacher Self-Assessment	Each teacher will conduct a self-assessment by reviewing data and reflecting on professional practices to determine teacher and student needs. In addition to student and teacher data, this review includes an in-depth analysis of the domains, dimensions, and descriptors of the T-TESS Rubric and the Texas Teacher Standards outlined in Texas Administrative Code, Chapter 149. Both of these documents communicate best practices and identify standards for teacher performance. As a result of the self-assessment, the teacher formulates targeted goals to discuss with the appraiser during the <i>GSPD Conference</i> . The goals should reflect how the teacher will change his/her practices to effectively impact student outcomes.
GSPD Conference	The GSPD Conference with the appraiser and teacher is critical to the T-TESS support system, as it ensures that both the teacher and appraiser are clear about the goals and subsequent actions to reach the desired outcomes. It is also an opportunity for the teacher to outline the support systems needed to achieve the goals. Per TAC, Chapter 150, the appraiser will approve the goals.
GSPD Plan Implementation and Formative Reviews	The teacher will engage in targeted professional development outlined in the GSPD Plan and periodically will assess how the professional development plan and goals are being met in a way that have an enduring impact on performance with the individual teacher and students. This ideally includes reflective conferences with appraisers or through other professional forums such as faculty meetings, department/grade levels meetings, peer coaching, etc. The teacher will maintain data/evidence to track goal attainment and participation in professional development activities detailed in the approved plan. (TAC, Chapter 150.1003). Although the method for collecting data and evidence to support goal attainment and professional development is a local decision, collecting and maintaining evidence is an important aspect of the T-TESS process. Options may include portfolios, electronic profiles, content management systems, etc.

Prior to the End-of-Year Conference, teachers should prepare to bring their Domain 4 evidence/data prior to the meeting, which includes their GSPD Plan
