In 1912, Louis Stein, who also owned a copper Smithy on the neighboring base, the late Dr. Heinrich Kuster was operated. After the death of Louis Stein, the estate remained in the family. After the end of the war at the end of the war, Heinz Stein took the guest. The trained chef and the master of the kitchen, who headed to the sea as Smutje and even India, before malaria was in charge of his maritime career, offered food at the Burghof. He was appointed prevailed as a cook with his guests. Because initially almost didn't dare to eat at the restaurant, because the impression should not arise not to cook their women at home. Therefore, Stein's dining spies can be served in the kitchen. Today, daughter Irmele Stein is married to Dr. Rolf Heiderich - Herrin's castle courtyard, which has been in possession of the family for about 150 years. History of the house where the burghof is today, the Schmidt Inn, the traditional guest of Mengedes. The old city center was still surrounded by the water of the Emscher and the western local border (Siegenstraße today) remained undeveloped over the centuries between the Heimbrüggentor (restaurant Burghof) and the gate of problems (Card of Freiheitstraße). Except for the basic Catholic school (Siegen-freihofstraße song), the flakes were already owned by the presence of the presence. The vernacular therefore spoke over decades of the "Schmidt" Eck ". The abolition of the Käl'n-Minden railway in 1847 and the successful departure of Hansemann Colliery, whose foyal company began in 1896the floors between train and town. Industrial development was combined with rapid leveling gain, which ultimately made Mengede held his self -awareness in 1889. Occasionally, at the end of the 19th century on the other side of the street there were still some bonds in Hermentmahrliche, and also for the first construction phase of the new Catholic Church, a place was found here in 1876. Fulls that were bubble for decades. On old cards, these were the Ä e ZkirmesgärtenÄ e, which were awarded to the use of the birds. In 1895, the Mengede office decided to adapt the first development plan to adapt modern plan performances to beyond forms of building. With foresight, new roads between the train and the location were shown and individuals were set with a width of 16 m, etc. in the expectation that the laying of electrical streets is not excluded. "As progress, the traffic planning of the time was, for example, can also be seen from the expulsion of larger rondelle EM crossing areas of several streets. A move of the town center towards the train station was slowly showing itself. Between Burgring and Mengeder Straße, the Siegenstraße (since 1928, previously Siegenweg or Nordstraße) was created at the beginning of the 20th century. The development became possible because the regulation of the Emscher also eliminated the flood that was in the area of the Siegenstraße. Louis Stein gradually separated from a few basic, or had new buildings built and sold them on Mengeder. His old inn could be canceled in 1926 and the "ZeitungÄ e Zeitung" wrote: The old half-timbered building, Sägenheim and craftsmanship at the time on the Nordstraßen- und Bahnhofstraße corner, in which since time immemorial an economy, and until before Mi Ereem Red Dieh Renehesssna hcch bottom bottom of dnuerf ieb, renkcul new fary äe \* - e jefueessÄ e Ä ä ethmhÄÄärob red ,trod etgithcÄc Reba Thichcsreho Redegnem Red, recräncefBlhop NESTNNANEG OS Red Laklmmats Hcanad hcanad hcanad fohgru Raw geirk honey Eiw.New Neghcan Suah Mi Tropstogek honey Nnak Treueh dnu uaB nezlots nenie hclos ,ethcarbfua tuM ned tieZ rerewchs ni red ,nietS nrreH rÄÄÄf gnnnekrenÄ red etroW dnaf holkuab-eltuhcS rehetsrovedniemeG red dnu na hcis nesselhcs nedeR ertieh dnu etsnr. rekredwnÄH netgiletob uaB ma rella nemaN mi etknad nedeinruZ remhenretnuuaB .thiewegnie Ä äÄ e e fohgrubÄz e e Red, sedegnem äe \* e Ä ä RemiznowÄz e Ä ä Euen Sad EtsÄsSrG renedeleg Mi Edruw Tiezuab Tiezuab regitanom-9 run hcan ,tiewos se raw 7291 lirpa. 9; Edegnem ni uablaas bottom eluhcs tim ztalptkram inexpressive hcua bottom eÄ fi ÄÄarts inhoamsiniehr red on GA-NettÄÄäh bottom uabgreb-noin Rednumtrod Red EduÄa murtnezluchS eÄÄorg sad hcua .B .z negnuldeishoW neleiv neben dnu nebeirteb nesuahgnireiwchS ni ielegeiz enie eid ,nedeihcstne ezluhcS IraK dnu hcirteID redÄÄÄrbeG eid rÄÄÄf nietS siuoL hcis ettah netketihcÄ slÄ .tfahcstriwtsÄG tim suahneilmafrheM nie ,uabueN red etanoM Reginew Blahrenni Datsme also nibats thin hcon heilfahcstriv red jrfrthcuief in the Trettemhcsgeg deil Sehcnam OS OW. Even a former on assis butler from Silesia, who accompanied a emigrated friend from Mengede on his home visits, was probably in the house with the crenelated gate. It laughed at the CHAPU © U CHAPUER in the Burghofnat. Let's stay with some anecdotes: two who had the Schalk on the back of the neck and who were fun for everyone, especially if they had Ä e Zeiten, were Ä e ZtummilÄ e and Helmut. One ate the landlady tulip and spent with the flower water, the other was over Ä e Zhaushund AntoneÄ e fresnapf. If a local doctor who was not a doctor who entered the restaurant, the hinge jumped on his regular place and only gave it up when the "do ZlocÄ e had shared his first beer with him. Ä e ZantonÄ e drank from the ashtray. Because of the dog Ä e ZantonÄ e, a person, also called Anton, who produced ties in Mengede, was deeply insulted. Although his friends called him Ä e Zte ", he said that the four-legged friend shared the name with him. For a month he defiantly avoided the restaurant. It was only when a gloss with his Burghof abstinence biased in the "Zeitung" ZeitungÄ e, did he end his "Zanton strike.
